It's INTERNATIONAL for **POWER** without strain!

All-Truck Built to save you the BIG money!

Come in and let us show you the difference between rated horsepower and usable horsepower.

You'll find it in the great new INTERNATIONALS we've got for you. Many trucks have to "rev up" to high rpm to develop horsepower to haul a normal load. The new INTERNATIONALS develop plenty of power at lower, more economical rpm. That's power without strain, less wear, longer life, to save you the BIG money, the over-the-years operating and maintenance money.

INTERNATIONALS, all of 'em, are all-truck built, with no passenger car engines or components asked to do a truck job. And that means a longer, more dependable truck life, to save you the BIG money.

Comfort? Practical good looks? Well, come on in and see for yourself. You'll soon see how you can save the BIG money on your job.

New "S-Line" INTERNATIONALS offer more power in light-duty models. Biggest power choice all along the line, from 4,200 to 33,000 GVW. 32 gasoline, LPG and diesel engines in the world's most complete truck line.

Your job is covered in the world's most complete truck line.

We offer the right truck for any job, from 1/2-ton pickups to 90,000 lb. off-highway giants.
