### Padding With Cake Texture Has Fragrant Molasses Touch

Reminiscent of gingerbread in flavor, yet with a more moist texture, is wonderful old-fashioned molasses pudding. This early-American dessert, championed by every generation tasting it, continues to be a specialty at many fine restaurants featuring American recipe classics. Superb of flavor, it's truly simple to make. The dry ingredients (flour, sugar and spices) have the butter "cut in" as for a crumb-type topping. As step two, combine delicate unsulphured molasses, water and soda. Alternate layers of the crumb mixture and the liquid in a square pan, and the pudding is ready for baking. The dessert can be cut into squares or spooned into serving dishes, and you'll have a moist gingerbread cake marbled with spicy crumb mixture. Serve hot or cold with a favorite fruit sauce.

**Old Fashioned Molasses Pudding**

2 1/4 cups sifted all-purpose flour	1/2 cup butter or margarine
1/2 cup sugar	1 cup unsulphured molasses
1/2 teaspoon nutmeg	1 cup water
1 1/2 teaspoons cinnamon	1 teaspoon baking soda
1/4 teaspoon salt	2 3-ounce packages cream cheese
	2 tablespoons milk

Sift together flour, sugar, nutmeg, cinnamon and salt. Add butter, cut with two knives or pastry blender to resemble coarse meal. Combine unsulphured molasses, water and soda. Alternate crumbs and liquid in a greased 8 x 8 x 2 inch square pan, beginning and ending with crumbs. Stir gently only 2 or 3 times with a fork. Bake in a moderate oven (350°F.) 1 hour. When ready to serve, blend together cream cheese and milk. Cut cake into squares; place spoonful cream cheese on top of each square. Top each serving with "Orange Sauce."

**YIELD: 9 servings.**

**"Orange Sauce"**

1 tablespoon cornstarch	1 cup orange juice
1/2 cup sugar	2 teaspoons grated orange rind
1/2 teaspoon salt	1 orange, sectioned

Mix together cornstarch, sugar and salt in a saucepan. Blend in orange juice gradually; add orange rind. Cook over medium heat, stirring constantly, until mixture comes to a boil. Add orange sections; heat.

**YIELD: Approximately 1 1/4 cups.**

Kenneth Brenner, a former graduate of I. H. S., was taken to Portland for major surgery on the upper region of his right jaw, last December. Dr. Brandon, a specialist who performed the operation, removed, what he called, a Gobliai Cist, the size of a small hen egg. By Turner Van Marter & Bryant

QUESTION: I note that the terms of my automobile insurance state that my car is not to be used to carry passengers for hire. If I carry fellow employees to work and they share the cost am I violating those terms?

ANSWER: Only the courts can decide whether a driver is legally liable for injuries sustained by his passengers but we know of no instance of an Insurance Company denying its own liability in "share the ride" cases.

\*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
