## Thermometers Again Drop to

## COLD WAVE **EQUALS YEAR'S** RECORD LOW

For the third night in a row the mercury dropped to below zero as Heppner's official reading this (Thursday) morning was -4 degrees. Weather forecasts gave some hope of gradual warming in the next few

However those who believe the legend of the ground hog won't want to put their woollies back in moth balls just yet. Today is ground hog day and if the little fellow could thaw out enough to peek out, he definitely saw his shadow.

Clear skies and a bright sun this week did practically nothing towards warming up a wellfrozen Morrow county which has shivered for the past three days under temperatures that have dropped as low as 8 degrees below zero in Heppner and even much colder in other nearby

A mass of extremely cold high pressure air from Canada has covered practically the entire northwest since Monday and has forced temperatures here down to -5 early Tuesday morning and -8 Tuesday night and Wednesday morning. Those readings were official government temperatures taken in Heppner, but several residents reported thermometers dropping to -10 an -11 Wednesday morning. Coldest spot in the county apparently was the Rhea creek area around Ruggs where unofficial thermometers registered as low as 22 below zero Wednesday morning and -20 early Tuesday. The readings there were almost identical to those during November's cold spell when Heppner had a low of -8 and several Rhoa Creek thermometers dropped to -20.

Reports of 10 and 11 below on Wednesday morning were received from Lexington and Ione and even colder temperatures were recorded in north end of the

Snow Cover Deep.

Not too much concern was felt by farmers as the cold weather came on the heels of two fairly heavy snow storms, the last on Sunday, which covered the entire area with up to seven and eight inches of snow. Very little additional damage was expected to wheat though many barley fields will probably have to be reseeded in the spring. It is thought that quite a little barley was frozen out during the earlier freezing weather in November. Should the cold weather continue over a long period, damage could corded here last month.

result however. The cold weather followed a week during which considerable by Len Gilliam, government weat the past seven years has been: snow fell over the entire state, ther observer, during the past 1955, 56; 1954, 1.16; 1953, 1.74; was high with \$30.40. The Moose Snow started falling here late month. This is five times that 1952, 89; 1951, 1.04 and 1950, 2.59. Saturday night and continued which fell in January 1955 and through most of Sunday adding nearly three inches to the already packed layer of nearly that same inches checked in January 1918 Dedication Plans amount. Highways were nearly The 10-year average for the all clear and largely dry by Tuesday but most city streets were a solid glare of packed snow and ice which caused innumerable driving difficulties. Many cars of the other sections of the county without chains were unable to get away from the curbs unless aided, but police have had no reports of any serious accidents due to the slick roads.

As usual plumbers were booked solidly thawing out frozen pipes and fuel oil distributors were busy keeping up with the de-

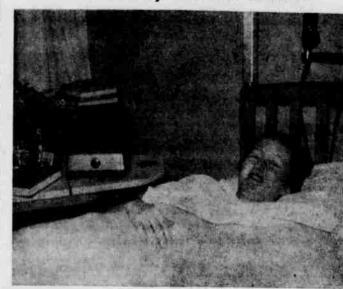

mand for heating oil. Weather forecasts late Wednesday told of more of the same dur. ing the next couple of days, but trial was a result of an automo- blinds in the office windows. with gradually rising tempera bile accident south of Heppner barometer stood at the extremely Bill Wickland, was killed. high reading of 30.71 Wednesday and was still rising slowly, indiair mass was still located in the

northwest Daytime temperatures Tuesday 472. and Wednesday remaining low, never rising to 20 degrees.

As a sidelight on the cold weather, a check of official figures in Heppner showed that the lowest temperature ever recorded here was -18 which has occurred several times during the past 45 years. Unofficial lows of -35 have

The Cobra patrol collected \$98.14 and Jim Farra Truck and Threepatrol collected \$60.78 and John Stratton was high with \$15.13. An additional \$2.00 was added to the fund by a resident who was missed by the boys and turned in his contribution Wednesday morning.

Following their work in the near-zero weather, the boys were fed by members of the Soroptimist club. The boys were aided in their cold job by Bill Farra, Ken Keeling and Mrs. Velma Glass who provided them with transportation.

The addition of the Tuesday night collections raised the county total to \$1,537.18 it was revealed this week. This is still several hundred dollars below last year, but there are also several communities that have not reported their contributions.

A breakdown of contributions \$79.86; Cecil \$75.

# It is also understood that Double Last Year

Water content of the Arbuckle week he was not available to mountain snow pack averages 38 percent above the 25 year average and 83 percent more than last year at this time, according to: snow measurements taken Tuesday, Jan. 31, on the Arbuckle mountain snow course.

Tom Wilson, Soil Conservation Service, and Richard Meador, of Heppner, reported 46 inches of snow with a water content of 11.0 inches. Measurements taken last year at this time showed a snow depth of 24 inches with 6.0 inches of water Comparable measurements in 1944 were 34.5 Nearly \$200 was added to the inches of snow with 9.2 inches of county March of Dimes fund on water and in 1953, 28.8 inches of snow with 11.2 inches of water.

A water content of 8.0 inches s the 25 year average for this time of year according to records of federal and state cooperative snow surveys. Soils are wet and unfrozed beneath the snow pack, Wilson reported. In addition to the water stored in the snow pack considerable water has already was \$199.27 it was revealed to- left the watershed during the day by Mrs. Velma Glass, drive last two months which did not

## **Icy Streets Cause** Car Smashup

Three cars belonging to Leslie Conboy, Roy Wheelhouse and William Jolliff suffered a total of several hundred dollars damage last Friday when they were struck by a truck which went out of control on icy streets.

The three cars were parked on Court street near the courthouse while their owners, plaintiffs and defendant in an accident damage suit being held at the courthouse, were at the trial. The truck, wned and driven by Luke Bibby of Heppner slid on the icy hill beside the courthouse and crashed into the first car knocking it into the other two machines. No one was injured.
