PONY KICKS

By Mary Stewart

Many new table games have been received for the junior high recreation room, reports Mrs. Blanch Boulden, seventh grade teacher. The room was started to give the students something to do in their spare time.

This week is test week for all Heppner high and grade stu-

dents. Only one more set of tests are left for the children after these are finished. Those tests will be the finals at the end of the school year.

Speeches were given to the seventh and eighth grade boys' health classes, reported James Mallon, P. E. teacher. Dr. L. D. Tibbles spoke to the students on "Communicable Diseases," and state policeman Bill Labhart's

topic was "Safety." Baseball practice began March 19 for the grade school boys. Margaret Hughes, Phyllis Bidle, and George Little are the high school librarians now working in the grade school library. Mrs. Marie Clary, head librarian, says that the orders for next year's books will soon be sent in. Approximately \$400 will be spent on new library books next year.

4-H Club News

JUNIOR LEADERS CLUB

A family fun night was planned for April 14 to raise money for the I. F. Y. E. fund by the Junior Leaders club. It will be at 8:00 p. m. in the Ione Legion hall. The entertainment will consist of modern dancing, old time dancing, card games, games for

the kids and a cake walk. Refreshments will be served. Donations will be taken for this International Farm Youth Exchange program. Donna Lingle, an Oregonian I. F. Y. E. that went to Greece was in Morrow county last week. The club met the evening of March 16 at Karl Beach's home. Eight members were present. Janet Wright, reporter.

ELECTRIC PROGRESS

Now television stations speed film processing with this new electronically controlled equipment which simultaneously cleans, checks and times motion picture film, does the job faster than ever!

New faster-than-ever electric water heaters now available at most appliance stores!

Here's welcome news for today's modern family. The new "quick-recovery" electric water heaters *heat water quicker and replace it faster.*

Larger capacity electric units give these new automatic water heaters their ability to heat water faster than ever—yet use no more electricity per gallon of hot water than standard types.

This means that even with the thrifty 40-gallon size, the average family can have all the piping hot water it needs for clothes-washing, baths, dishes and cleaning—with plenty left over for the scores of other daily household uses. And the cost is just pennies a day with dependable, low-cost electric service from Pacific Power.

See your appliance dealer or plumber and learn more about the amazing new "quick-recovery" electric water heaters.

LIVE BETTER... ELECTRICALLY!
