Second and Third Grade News

Many children, also their teachers, have been ill. Cherilyn Smouse and several others have been suffering from earache after having "flu". Frances McLeod is back for a half day each day. She will soon come for a full day.

Bobby Lee DeSpain shared his new "world globe", with us today. Bobby received it for his birthday which will be April 21. Susan Lindstrom and Bobby Lee had a party in their rooms Monday honoring their birthdays.

The third grade is doing some string painting. The children enjoy the unusual designs they can make from tempera and string.

April 13, we placed our names in a bottle and buried them at the roots of the little tree which was planted. Some time in the future we will be interested in seeing our writing as it was

when we were seven and eight years old.

First Grade News

Monty Crum's mother and little sister, Kathy, were in our room last week. Mrs. Crum gave us some nice cookies and bananas for lunch.

Jerry Stefani has a new baby sister. Her name is Tina Lee.

We have a post office in our room. One morning we found a letter from Mrs. Smith. Mrs. Smith is Mrs. Hall's daughter. She visited us three days last week. We were glad to have a letter from her.

Children who have been absent this week are Pamela, Virgil, Karen, Kenny and Berniece.

Track Meet

A track meet was held Friday April 13, 1956. The classes competed against one another. The different events were: 100 yard dash, 440 yard race, 120 yard low

Campfire group have fulfilled their main requirement for that rank.

In the last two weeks they planned their menus, shopped for their food, and served dinners prepared entirely by the girls. The group was divided into three groups of three girls each. Dinners were served at the homes of Diane McCurdy, Judy Schmidt and Peggy Estberg, on April 12 at six o'clock. They turned out very well.

Besides the families of the girl at whose home the dinner was served, each group invited a Wood-gatherer to be a guest.

The planning committee has planned the years program. This committee made up of Jeanne Schmidt, Mary Shannon, Shirlee Gaines and Cheryl Crist has planned many interesting events for the group. Each project has been assigned to a definite committee.

Family Fun Night

The family fun night turned out a big success. It started out with lone's school dance band playing a few modern dance numbers.

Most everyone occupied themselves playing cards, or square dancing. Refreshments were served by the 4-H members and the leaders.

All of the contributions go to the IFYE fund to help send a boy or girl from Oregon to some foreign country.

WHAT DO YOU MEAN, "JUST FACE LIFTING"?

EVERY NOW AND THEN, we run across someone who seems to think that 1956 cars do not offer anything really new—just a little face lifting from the year before.

We won't try to speak for the automobile industry. But we certainly can speak for Buick.

And let us announce in no uncertain terms—it's the newest thing on wheels.

The Styling is New

Sure, it looks like a Buick. But it has a new V-proved grille that says 1956 and no mistake. The hood's new—the fender ports are new—the sweeppear is new—and it all adds up to a new sweep-ahead look that ends in a sassy new slant to the rear contours.

But that, friends, is only the beginning.

The 1956 Dynaflo* is New

It introduces what the engineers call "double regeneration"—which means a double-action take-off. It gives you new,

split-second response in the first inch of pedal travel—plus the "switch the pitch" at full acceleration, which no one else has yet approached.

The Ride is New

To coil springs on all four wheels, a brawny X-braced frame, and torque-tube drive, the engineers have added deep-oil shock absorbers to give new softness, new buoyancy, new comfort, and a brand-new "sense of direction" handling response.

The Power is New

All 1956 Buicks have new 322-cubic-inch V8's—with record highs in power and compression—with unique new double "V" manifolding to step up efficiency—with new carburetor "deicing"

—and a host of other new features to make owning a Buick pure pleasure.

The Thrill is New

And the surest way for you to find out how right we are, is to sample a 1956 Buick yourself.

As we said before, this is the best Buick yet—by a wide measure—and when you learn the prices we're quoting, you'll know why this Buick is one of the three best sellers in today's market.

It takes a lot more than face lifting to produce such a winner as this.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick built today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

From where I sit... by Joe Marsh

They Travel "In Class"

Our high school correspondent says that Economics and Geography students are going in for "grass roots" studying.

They're going to charter buses and take off on Operation See-For-Yourself—have a ten-day look at some of the things they've been studying about.

As I remember, it was hard to keep your mind on schoolbooks at this time of year. Today's kids can give in to that old urge to bust out of the classroom—with a clear conscience. Wish they'd take me along.

From where I sit, it doesn't hurt us adults, either, to get out and see how the rest of the country lives. We find the "typical American" doing everything from herding cattle to flying planes... with everything from steak to powder for his favorite dish... everything from beer to butter-milk for his favorite beverage. And the more we study our differences the more we learn how alike everyone is underneath.
