Hermann, chairman of the child welfare, received the following letter from Viola Fleming in regard to the Easter dresses of the Portland child welfare center.

"It has been a pleasure to work in Portland Child Center this Easter 1956. Your wonderful contributions and handsome gifts were always a thrill to see. As I opened the boxes I was so thankful that I belonged to an organization whose members were so generous and thoughtful of the people who are less fortunate than most of us. You can be very proud of your unit and be assured that there were many lively dressed children at Easter time. Your unit has been given credit for \$76.00 new and \$17.00 used clothing. I can not thank you enough for all the fine things you have done for the center."

GRAIN GROWERS CUT COSTS WITH "NO-LIFT-NO-LUG" NITROGEN SERVICE

OUR MECHANIZED FIELD-SIDE SERVICE saves you manpower and equipment time on storage, handling, hauling and applicator loading.

Why are grain growers in a major swing to Brea Aqua Ammonia from non-solution types of nitrogen? (Rate of change-over 26 to 1 in some areas.)

The big answer is big yields and better profits! And better profits result because Brea Aqua handles faster and easier above ground... then out-performs other nitrogen carriers below ground. (Up to 20-30 percent in official production tests.)

Our field-side handling, loading and drill application are fully mechanized. Application tanks are refilled with high-speed transfer pumps which cuts loading time. One man keeps a rig rolling and covers more acreage, more quickly, because this

MECHANIZED REFILL cuts applicator loading time and labor 70-80 percent. High-speed transfer pumps do the work faster, better.

liquid fertilizer permits faster ground speeds with less draw-bar pull.

Brea Aqua provides the long-sought answer to ideal drill application. It soaks nitrogen into the soil and gets young grain off to a healthy start. Brea Aqua stores exceptionally well in the soil too, and feeds nitrogen to growing grain continuously, over a long period.

Talk to us about combining soil preparation with fall injection for even greater savings of time and money. Let us give you proof that "no lift, no lug" fertilizing with Brea Aqua Ammonia means bigger grain profits.

Just call us and we'll come out and show you how Brea Aqua solutions can make more money for you.
