Young "Ham" Visits Idaho Amateurs

Mickie Van Scholack, a young local amateur short wave radio operator, recently had the unusual experience of an overnight airplane trip to Homedale, Idaho, where he met and visited with three other young "ham" operators with whom he has been making regular radio contacts, but never met. The parents of one of the boys brought the boys to the airport to meet young Van Scholack, and the evening was spent in an extended ham session.

Mickie, aged 14, is president, and most active member of the local amateur radio club. The club was formed about 18 months ago under the tutorage of Ray Smith, local operator of several years training and experience. Mickie is the first, and as yet, the only other member to receive his advanced license for unlimited transmission. His rapid advancement, a rather unusual accomplishment, also includes remarkable ability in assembling and improving his transmitting equipment.

Textile painting seems to give those who have a talent for art an opportunity to really express themselves and at the same time their practical side will get a good deal of satisfaction from knowing they are creating something which can be used.

WAIT & WEEP?

Of all the sad stories,
 The saddest we know—
 Is one we heard lately
 Of young farmer Joe!

Couldn't decide what his
 Grain Crop would make;
 Didn't get hail insurance
 Until far too late!

Joe hadn't much crop left
 To harvest then, we hear!
 He also had but little dough
 To live on the next year!

Don't you delay; get it today!
