WHAT'S DOING

D. A. Short, your Telephone Manager for Heppner

What makes a company a good citizen?

We, at the Telephone Company, often ask ourselves what makes a good citizen because both as men and women and as a Company we want to be the best citizens we can. A good citizen pays taxes, of course. And, naturally the Telephone Company does this, paying property taxes of \$17,650 last year in this county alone. As you know, the money comes from the telephone bills you pay. And the tax dollars we pay are dollars that contribute a substantial amount to good government in the community. But we believe it's not enough just to be a taxpayer. So we try to do our part in the community in other ways. We think it is important to take part in the activities of the Community Chest, the Red Cross, the Boy and Girl Scouts and other community affairs. Fact is, we believe the ways of being a good citizen are unlimited and we're anxious to do our part.

Wish them well—by long distance

A wedding is one of the most important events in their lives. And a long distance call, wishing them well as they step out together, will make them feel extra good. For occasions like this or when you just want to take a few minutes to say hello to someone special, long distance is the warm and close way. Why not look in your directory and see how very little it costs to call someone very dear to you.

How to go shopping in your armchair

It's easy when you use the Yellow Pages. No matter what you want, be it a new furnace or just a can of paint, you'll find who sells it and you'll find them fast by looking in the Yellow Pages. The classified part of your telephone book comes in handy, too, when you'd like to shop around a little, get prices without leaving your house. Yellow Pages are a good guide to good shopping. Use them often. Pacific Telephone.

How much of this \$40,000,000,000 pie belongs to you?

THIS YEAR is the 15th anniversary of the U. S. Savings Bonds Program, the greatest success story the world has ever seen.

Since May, 1941, 40,000,000 Americans have saved \$40,000,000,000 in United States Series E and H Savings Bonds. That's an average of \$1,000 per investor. Do you own your share?

If not, you're missing out on a real money-making opportunity. For every \$1.00 invested in U. S. Series E Savings Bonds will pay you back \$1.80 in 19 years and 8 months. What's more, every dollar invested in Savings Bonds is absolutely safe, not subject to market fluctuation. And

every dollar invested in Bonds earns you 3% interest, compounded semiannually, when held to maturity (9 years and 8 months). Plus the same good interest rate for an additional 10 years, should you so desire.

Look ahead to the next 10 or 15 years and see what a regular investment in Savings Bonds will mean to you. A new home. A college education for your son. A retirement income.

You owe it to yourself to start investing in Savings Bonds today—either on the Payroll Savings Plan where you work or at your bank. The bigger the slice of this \$40,000,000,000 pie that is yours—the better off you'll be.
