### NEW FEED LETS CHICKS MULTIPLY HATCHING WEIGHT 30 TIMES IN FIRST 12 WEEKS

A new chick starter has been developed by General Mills that lets poultry raisers grow chicks in a hurry. This starting ration, called Larro Sure-Chick, is so rich in the life-sustaining, growth-promoting nutrients that chicks started on it multiply their hatching weight as much as 30 times in the first 12 weeks of life.

Poultry scientists at Larro Research Farm say this starting feed will be of great benefit to all poultry raisers. They say a fast growing chick is in better shape to withstand disease and

severe temperature changes—and poultry raisers feeding SureChick should have more chicks that will live and grow into healthy layers for this fall.

All the known growth-boosters and health promoters have been carefully blended into this new starting ration to give chicks fast gains with safety. Mr. Melena of Builders Supply says he has a fresh stock of SureChick on hand right now and advises all chick raisers to phone in their orders within the next three days. Or, stop in today at

## IT'S SWITCHCRAFT - that's what it is!

You'll see when you try Buick's new Variable Pitch Dynaflo!

Buick Century 4-Door Riviera

IT TAKES a new word to describe the magic at your command when you drive a '56 Buick—with the newest transmission of them all.

It's full power go-ahead on the instant. You can get where you were just looking in a shaved second's time—with the most modern and most thrilling surge of safety acceleration in the land today.

It's smoothness, too. Complete freedom from the "bump" and lag of gears shifting. Only with Dynaflo can you go winging away with so smooth a sweep.

And only with a '56 Buick can you enjoy Dynaflo's newest marvel. It's something the engineers call "double regeneration." Lets you start off like an Olympic sprinter, with the pedal pressed just an inch or less. (And driving that way, you get better gas mileage.)

There's more big news, too, that goes with this new Buick magic. And that covers a lot more than styling.

Sure—you'll like the graceful new beauty of the V-shaped prow and sweep-ahead look. And you'll like the extra room inside.

But as you drive you'll find that this Buick responds with the new might of a big, record-powered V8 engine of 322-cubic-inch heft.

It handles easy as butter to a warm knife. Tracks the curves like a plane on the beam. Makes any road seem paved with pillows.

And what's responsible for all this are more new engineering advances than Buick has ever made in one model year.

So why not come in and see—and feel—the difference they make? You'll soon know why owners find it's the best Buick yet—and the best buy yet, by far.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick built today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

AIRCONDITIONING at a COOL NEW LOW PRICE. It cools, filters, dehumidifies. Get 4-Season Comfort in your new Buick with genuine FRIGIDAIRE CONDITIONING.
