**Best Seller that's hard to beat**

This '56 Buick is packed with new features—and priced close to the smaller cars!

Buick SPECIAL 6-Passenger 4-Door Riviera

WANT SOME QUICK FACTS on the big news in automobiles today—news that can guide you to a smart move and a real smart buy?

Then listen—it won't take long.

The 1956 Buick has so many new developments—in styling—in power—in performance—in ride and handling—that it is, literally, the best Buick yet. That's Fact No. 1.

And Fact No. 2 proves it: Buick today is more strongly entrenched than ever in the top three of the nation's best sellers—outselling all other cars in America except two of the well-known smaller cars.

One big reason for this success is the strapping new Buick SPECIAL—like the one pictured here.

It's priced right close to those smaller cars—but, like every '56 Buick, it's a whale of a lot more new car for the money.

It cradles a big, new 322-cubic-inch V8 engine that's record-high in power and compression, and crammed with engineering news even the costly cars can't claim.

It makes the most of every bit of power with a new version of Variable Pitch Dynaflo\* that's the most efficient yet. With a new development the engineers call "double regeneration," Dynaflo gives you great new acceleration from the first thirty inch of pedal pressure. Even before you switch the pitch.

And this '56 Buick cushions you in the softest ride ever. Shows an uncanny sense of direction on every curve and turn. Puts a whole new

feeling of safety, security and solidity into every mile you drive.

So before you buy any car—catch up on the latest news. Come try a '56 Buick. When you see how much new automobile your money can buy, we don't think you'll ever settle for less.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick build today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
