Frozen Food Helps Given in Bulletin

Frozen prepared foods, such as pies, chop suey and swiss steak, can shorten last minute kitchen hustle and need only reheating for table use, according to a recent bulletin distributed by Oregon State college.

Suggestions for freezing combination dishes, frozen plate and precooked meals, salads and sandwiches are included in "Foods from the Freezer: Precooked and Prepared" written by a nutritionist at Cornell university.

Helps for freezing fruit sauces, purees, baked apples and chocolate coated bananas are also included in the bulletin. Agent Kolshorn, OSC extension nutritionist, says copies may be obtained from county extension offices or the OSC bulletin clerk.

Your Congressman Says...

Congressman SAM COON
WASHINGTON, D. C.

AS THIS SESSION of Congress enters its final weeks, action has been speeded up on important legislation. The Federal highway construction bill and the pollution control bill were sent to the President for his signature last week. The House passed the World War I veterans' pension bill. Action is taking place on the Federal aid to school construction bill. Many of the appropriation bills have been passed by both Houses of Congress, including the public works appropriation bill which is so important to our district.

THE LARGEST SINGLE ITEM in this public works appropriation bill was \$42,457,000 for The Dalles Dam. \$2,828,000 was included for the McNary Lock and Dam, \$1,450,000 for advance design and engineering work on the John Day Dam, \$1,035,000 for construction of the Haystack Dam in Jefferson County.

Funds were also included for the Owyhee Project, for work on a flood control survey at Pendleton, for maintenance and operation of the Klamath Project, for flood control work in the Malheur Improvement District, and for channel maintenance work on the Columbia River from Portland to The Dalles.

THE HOUSE OF REPRESENTATIVES passed a bill which if enacted into law would mean \$90 per month pensions at age 65 for many World War I veterans, subject to income limitations. I voted for this legislation as I favor pensions for our aged and needy veterans.

This pension rate would be increased by 10% if the veteran served over seas for more than 30 days. The income limitations are \$1,400 for single veterans and \$2,700 for veterans with dependents.

THE BUREAU OF RECLAMATION has programmed \$29,000 for the year starting July 1 to conduct an investigation on the Upper Division of the Baker Project in Baker County. They told me that this should substantially complete the field work on their investigation. I have introduced a bill into Congress to authorize the construction of this project.

OUR DISTRICT has been allotted more than \$1,000,000 in the past two years in aid to Federally impacted school districts which are affected by nearby government activities. Part of this money is for school construction, part to help with regular school operations.

The bulk of the money has gone to districts in Wasco and Umatilla counties which are affected by Federal activity at The Dalles Dam, McNary Dam and the Umatilla Ordnance Depot. Morrow, Sherman, Klamath, Jefferson, Hood River, Harney, Grant and Deschutes Counties have also benefitted.
