Today's only 4-wheel drive truck...

designed and engineered completely for 4-wheel drive off-the-road use!

Your purchase of a 4-wheel drive truck involves an important investment. That's why you should get all the facts before you buy.

When you get the facts, only one 4-wheel drive truck stands out—the rugged 'Jeep' Truck. And it's no wonder why! It's the only 4-wheel drive truck in its weight class originally designed and engineered completely for 4-wheel drive, off-the-road use—the only one time-tested and performance-proved in millions of miles of transport service. Yet, it shifts easily into conventional 2-wheel drive for highway travel at top legal speeds. It's not a conversion unit, not a modified 2-wheel

drive truck! It's tested, proven, certified and unique in its weight class. No other 4-wheel drive truck even touches its performance-proved all-around utility.

Add to all this the 'Jeep' Truck's functional design, long life, low maintenance cost and high re-sale value and you see why it's your one best 4-wheel drive truck buy!
