### Real Woods Unharmed by Cigarettes

Now you can enjoy beautiful real wood furniture without worrying about careless abuse, even at parties.

A forgotten cigarette can burn to ash and not harm today's newest furniture featuring "beautyguard" genuine hardwood tops developed in Fine Hardwoods Association research. Spilled alcohol, nail polish and remover, fruit juices, perfumes, cosmetics and other common abuses also won't mark or stain these new wood furniture surfaces. Protected by a special new "beautyguard" process, these abuse-resistant real wood furniture tops retain all the warmth, depth, richness and individuality of the genuine hardwoods used. There's no longer any need to settle for commercial-looking substitutes.

These new hardwood tops give you fine woods in fine finishes for surfaces subjected to hard use, eliminating the glassy, wavy look of most resistant-surfaced materials. The "beautyguard" process supplements the extremely durable, modern finishes already available on wood furniture.

With these new wood tops, you can decorate with fine hardwood furniture you're proud to have in your rooms, and still have a care-free, modern home that won't be hurt by careless guests.

Typical of the handsome new furniture designs featuring abuse-resistant hardwood top surfaces is this "Antique" dining room grouping in richly-grained, toast-finished mahogany, with matching "beautyguard" genuine mahogany tops on the table, buffet and china.

Occasional tables, desks and bedroom groupings are also offered with these worry-free wood tops. You'll be glad to know, too, that furniture with these luxurious hardwood tops costs no more, and usually less, than comparable furniture with plastic imitation wood tops. There are styles priced for every budget.

Another advantage is that these abuse-resistant real wood tops always exactly match the rest of the piece, and are offered in every finish color and degree of gloss, permitting many custom finish effects. You can identify genuine "beautyguard" furniture only by the "beautyguard" seal used by many leading manufacturers, as this new abuse-resistant furniture looks just like any fine hardwood furniture.

This latest scientific "miracle" is a real boon for you homemakers who want a gracious and carefree home. You'll never have to apologize for being practical and choosing "beautyguard"-protected furniture.

## Picnics Held Sunday By Three Lodges

Numerous lodge picnics were held Sunday in and around Heppner.
