

Mustangs Open Grid Practice On August 26

Heppner high school coach James Mallon announced today that football practice for the Mustangs will start Monday, Aug. 27 and that equipment will be issued Sunday, Aug. 26. He also reminded grid hopefuls that physical exam slips should be ready by the 26th and that local doctors can supply them.

According to O. S. A. A. rules, players to be eligible to play in the first game Sept. 7 must have completed ten practice sessions, and Mallon said the rule was made for the protection of the boys. He also said that boys participating in the fair and rodeo can miss two of the scheduled practices and still be eligible, but the boys should plan accordingly.

Many positions on the team are still open as the squad lost seven of the first 11 from 1955. There will be however, 11 returning lettermen and Mallon looks for a good first string. There is a lack of depth on the squad with the worst shortage being in the backfield as Ron McCabe has moved to Brookings and Jim Morris is sporting a cast on a broken arm.

The first game the Mustangs will play is with Wallowa on Sept. 7 and it promises to be a dandy as the Wallowa team is expected to finish first in the league.

Season tickets for the five home games are now on sale by all members of the chamber of commerce.

The schedule includes: Sept. 7—Wallowa, here Sept. 14—Hermiston JV, here Sept. 21—Mauplin, here Sept. 28—Umatilla, there Oct. 5—Stanfield, there Oct. 12—Elgin, there Oct. 19—Pilot Rock, here Oct. 26—Moro, there Nov. 11—Echo, here

It doesn't cost a cent to Take a Ford Test Drive... and you may save hundreds!

Would you trade 20 minutes of your time for a saving of hundreds?

Why put off the fun of a Ford Test Drive for a single day? As you know, it puts you under absolutely no obligation. And it may save you literally hundreds of dollars—we'll get to that a little further on.

By a Test Drive we mean more than a once-around-the-block "spin."

We want you to test the power that rocketed Ford to a 500-mile stock car record at Indianapolis... the GO that won the grand prize at NASCAR's Daytona Championships. We want you to feel how this Ford seat pays off in your kind of driving: in traffic, passing on the highway, getting going at traffic lights. We'll put either a Ford Six or a mighty V-8 with up to 225 h.p. at your disposal.

We want you to drive and listen—drive and feel.

That fine-car quiet results from sound

insulation under the hood, under the roof, in door and body panels—the most insulation in any car at anywhere near Ford's low price.

Some other things that contribute to that smooth, silent, luxury-car ride are things which Ford's leading competitor certainly can't boast: Ball-Joint suspension with wide base control arms for better steering, more stabilized wheel alignment... shock absorbers that are mounted to the frame rather than the body.

"Sure," you'll say as you drive along the road. "Feels pretty good—but after all, this car is new."

Well sir, when you come in from your drive we'll show you why Ford will stay like new for a long, long time.

We'll show you how Ford has five cross-members (including a "K" member) in its frame. Ford's leading competitor only has

two. We'll show you the deep-block Y-like engine design which enables Ford engines to take it.

Now—what you've been waiting for. How can you save hundreds of dollars by taking a Ford Test Drive?

Simply by proving to yourself that there really is a fine car in the low-price field.

You see, the reason a Ford does not cost hundreds of dollars more than it does, is Ford's huge production and the huge volume which we Ford Dealers sell.

But enough of this talk. Come in. And you do the driving and the talking. Bring the family, too.
