THE CLASSIFIED ADS FOR PERSOL CLEANERS NOTICES

Ford tandem axle BIG JOBS are rated to carry more payload than comparable models of any of the leading manufacturers. T-800 model has max. GVW of 45,000 lb.—GCW is 65,000 lb.

Ford's F-100 Custom panel is one of the top load carriers in its class. It provides 155.8 cu. ft. of cargo space in a smooth, fully lined interior and hauls up to 1,535 lb. of payload.

The hardest-working, biggest-saving "two-tonner" of them all is the Ford F-600. Only Ford offers a Short Stroke Six and three Short Stroke V-8's in this field. Max. GVW is 19,500 lb.

FOR BIG JOBS... SMALL JOBS... ALL JOBS

Ford Trucks cost less

And low first cost is only your first saving

Ford's F-100 pickup with 8-ft. box is the biggest in the half-ton field—up to 19 cu. ft. more loadspace than the others. Regular 6 1/2-ft. box with a full 45 cu. ft. capacity also available.

COME IN TODAY!

Before you buy your next truck, look at both sides of Ford's story of value. Check what you get and what it costs. You'll like what you see.

Look at the costs. Ford's first cost is low. Resale value is high. Modern Short Stroke engines—V-8 or Six—are designed for less friction, less wear, lower running costs. Maintenance costs are lower, too, because Ford trucks are built stronger for rugged long life. And a 10-million truck study proves Ford trucks last longer.

Look at what you get and you'll see you get more in a Ford. For example, more horsepower per dollar—proved by a comparison of factory-suggested list prices and net horsepower of all truck lines. You get more comfort with a Driverized Cab, and more safety with Ford's exclusive Lifeguard features.

Look carefully... consider everything. You'll agree Ford trucks cost less, give you more. If you want a great deal—a great deal more for your money—see your Ford Dealer.

FORD TRUCKS LAST LONGER

Using latest registration data on 10,502,351 trucks, insurance experts prove Ford trucks last up to 9.9% longer.
