in Class 57-1 at Bartow Air Base,
Florida, after six months train-
ing. Prior to the ceremonies the
last T-6 student flight in the

at Bartow. This brought down
the curtain on the era in aviation
history of the T-6 North Ameri-

the first ones were put in use

000 pilots have flown the T-6
trainer. The T-6 is giving way to
another North American trainer,
the T-28. This plane has a tri-

cycle landing gear and has many
features of the jets which the
student pilots will be flying prior
to winning their coveted wings.
