GOVERNOR ELMO SMITH gives active leadership

for example

LIQUOR CLEANUP—One of Governor Smith's first acts was reorganization of the Liquor Control Commission with instructions that it must deserve the complete confidence of the people and stop sale of liquor to minors.

HIGHWAYS—No governor has been better informed on highway problems. Oregon's 72 million dollar highway program was developed under his senate leadership. His leadership in highway development is nationally recognized.

THE AGING—While insisting that Old Age Assistance payments recognize higher living and medical costs, Governor Smith has given equal emphasis to programs that will utilize the skills and experience of our older people and furnish recreation they can enjoy. He has recommended a permanent state committee to formulate such programs.

Here's what put the magic in the new kind of FORD!

It started with the "Inner Ford." When Ford planned this baby, they thought in terms of a car through-and-through new.

The wheels got smaller. This Ford is so new that even the wheels have changed. Now smaller and broader, they help you take off quickly.

The wheelbase got longer... so now you can choose between a Ford that's over 16 ft. long—or one over 17 ft. long!

The frame got wider. Side rails bow out to give a more stable, safer riding platform... a lower, sleeker silhouette.

The ride got smoother. With new suspension, new springing front and rear, the ride this new Ford gives is the smoothest ever.

The handling got easier. Poised and balanced like a panther, this car has swept-back front suspension that works its magic when you need it most.

The power got hotter. There's a wide range of Silver Anniversary V-8's to fit every horsepower need*... plus a new Mileage Maker Six.

"Six or V-8 the going is great!"

What put the magic in the new kind of FORD?

The new Ford Fairlane 500 (118-inch wheelbase). Longer, lower, larger than many medium-priced cars, yet lower in price than most of them!

The roof got lower. And it's designed to let you make the easy entries and graceful exits you've always known.

The body got quieter. It's the strongest body built for a low-priced car. No car in Ford's field has such generous sound-proofing.

The room got bigger. There's head room to spare for a tycoon-type hat. There's real stretch-out leg room, too.

The lines got sweeter. They have the touch of tomorrow. Each graceful contour says, "Let's go!"

The style got smarter. With this new-look Ford you have a car that belongs anywhere! All Fairlane models look like hardtops.

The value got greater... the price is still Ford-low.
