Coach Mallon, on being asked about plans for homecoming reports—"There will be no rest for the wicked until the game. Practice is being held every night."

"Friendliest school system we've been in," was one of the comments given at the local O. E. A. meeting October 29. As the new teachers gave their impressions of our system, ways of improving it further were discussed. Some of the ideas proposed included; having one person in charge of music through all the 12 grades; giving students broader views of the world in which they live; improving the testing program.

Student council members decided to include each month's calendar of events and the student council minutes in the town news. The young people feel that such information is important to student relations with community functions.

Student Council Meeting
The meeting was called to order by Vic Groshens. The treasurer's report showed a balance of

\$1031.82. Pins were approved for both first and second semester council members. It was decided to order student body pins at the same time. The assembly sponsored by the Oregon State Game Commission was set for a later date. Further business coming before the meeting included the approval of a motion to have the head cheerleader present at all meetings until after the basketball season. Problems facing our school at the present time were discussed but decisions tabled until a later meeting.

DON'T VOTE SALMON OFF YOUR PLATE!

Measure Number 7, if passed, will prevent sea food fishermen from fishing in our coastal bays.

Here's what will happen:

- It will limit catches when they are needed most for the retail market.
- It will increase the cost of Salmon due to seasonal scarcity.
- It will cripple Oregon's important fishing industry.
- It will be a hardship on hundreds employed in the fishing industry.

Vote **AGAINST** this bill — it will **HURT OREGON!**
