

PONTIAC CUSTOM CATALINA SEDAN—Longer, lower Star Flight styling of the luxurious 1957 custom Catalina sedan combines with the powerful new V-8 engine and the more responsive Strato-Flight Hydra-Matic transmission to make the new car the most exciting ever offered by Pontiac. Body finish of Lucite lacquer in "dream car" colors and upholstery of fine hand-buffed leather are featured on the Star Chief series. The sleek Catalina four-door hard-top model is also offered in the Super Chief and Chieftain series in 1957.

Paul Kimmel is a pneumonia patient at the hospital in Woodburn.

Heppner High School SCOOP

By Judie Spaulding
Homecoming Court Announced
Shirley Kononen, Marilyn Petryjohn, and Joann Brosnan have been elected by boys of the Heppner "H" club to reign as members

of the royal court at the Heppner high school homecoming November 12.
Which princess will become the queen? Members of the "H" club will refuse to reveal this important feature until the half-time ceremony at the Heppner-Echo game.

Making their appearance riding atop a flashy Ford convertible driven by Louis Sayers they will be presented with a corsage of Mums in front of the grandstand. Jerry Dougherty and Vic Groshens, co-captains, will then present the princess honored to become queen. The girls will be escorted to seats in the grandstand for the remainder of the game.

The queen and her court will be the guests of honor at the semi-formal homecoming dance that evening at 8:00 p. m. in the gymnasium.

Sponsoring the registration and voting for the high school was the junior class. Registering was held on Monday and voting on Tuesday, election day.

Also the juniors copped with third place on last Wednesday evening at the hayride sponsored by the Soroptimist club.

Many club groups and individual pictures for the Mustang year book were taken Tuesday by Cole Studios of Pendleton.

United Nations assembly was held on Wednesday at 1:00. David Paul of Pendleton told about his trip to the United Nations.

Band Schedule

New Telephone Co. TV Program Due

"Our Mr. Sun," first presentation of the Bell Telephone System's new television science series, will be seen in Heppner over the CBS television network Monday, November 19, at 7 p. m.

The hour-long program in color will be seen elsewhere in the United States and Canada over a special network of more than 150 stations.

Produced and directed by three-time academy award winner Frank Capra, "Our Mr. Sun" has been four years in the making. To make this adventure in science entertaining and easily understandable, Capra has interwoven

live action with animated cartoons and filmed scenes from all over the world.
Two Oregon scientists and their invention, the Bell solar battery, are shown in the part of the program that tells of man's most efforts to harness sun power. They

are Gerald Pearson and Daryl Chapin, graduates of Willamette University.
"Our Mr. Sun" is the story of the sun, how it was born, what makes it shine, how it is the original source of all power, and how it affects all living things on earth.

For the month of November the band will finish football season by playing at the homecoming game, and start basketball season by attending the Boardman jamboree the first of December.

On the 31st of this month the band will journey to Echo to be present at a clinic under the direction of Ira Lee from the University of Oregon.

The Chamber of Commerce will witness a performance on Monday by a trio of clarinets; Jay Sumner, Janet Wright and Alice Faye Stewart.

The band and chorus has been working in preparation for the concert to be held December 19 at 8:00.

live action with animated cartoons and filmed scenes from all over the world.

THE NEW Pontiac is Completely New from Power to Personality!

Fresh from 100,000 miles of testing, the '57 Pontiac is on display tomorrow! Even a brief once-over of Pontiac's sleek new lines tells you that you're in at the start of a styling revolution. And that glistening sheath conceals a carload of engineering "firsts"—all polished to watch-work perfection in the toughest test ever given a new car.

This '57 Pontiac pounded the road through 100,000 miles of tests . . . through it all Pontiac engineers refined and perfected every feature of this great car.

They made Pontiac's big, new power plant even more efficient than its predecessor, the engine that set over fifty new world records and led all eights in miles per gallon! They perfected the new suspension system, new controls and new Strato-Flight Hydra-Matic* to give you the smoothest riding, easiest handling—and safest—new car ever to hit the road!

See and drive this new '57 Pontiac. Sample in a single mile all that's been proved by 100,000 miles of testing.

AND THE FIRST CAR AT ANY PRICE WITH . . .

STAR FLIGHT BODY DESIGN—a Pontiac Exclusive—longer and lower than ever before—the year's most distinctive new automotive styling.

NEW INTERIOR STYLING—WITH THE "OFF-THE-SHOULDER" LOOK—a fashion "first" for '57—perfectly color-matched with the exterior.

NEW STRATO-STREAK V-8—270 h.p. in Star Chief and Super Chief, 252 h.p. in the Chieftain—with smoother Strato-Flight Hydra-Matic.

CLOUD-SOFT, LEVEL-LINE RIDE—the ride sensation of the year—a new suspension system based on a big 124- or 122-inch wheelbase.

THREE POPULAR-PRICED SERIES—Star Chief • Super Chief • Chieftain.

See America's Number 1 Road Car—On Display Tomorrow!
