

For Holiday Glamour Try A Tetrazzini

An elegant buffet dish which makes excellent use of planned holiday leftovers is Turkey Tetrazzini, a lyrical combination of turkey, mushrooms and a pale cream sauce smoothed with evaporated milk and livened with sherry.

Glamorous as the famous soprano from which it takes its name, Turkey Tetrazzini teams beautifully with a tart salad, hot coffee and a pretty dessert for an easy and effective buffet. The evaporated milk adds creaminess and serves as the perfect blending ground for the delicate turkey and mushroom flavors.

TURKEY TETRAZZINI

1 can (8 or 4 ounces) mushrooms	¼ teaspoon Tabasco
1 cup evaporated milk	2 cups coarsely diced cooked turkey
2 tablespoons butter or margarine	1 to 2 tablespoons sherry, optional
2 tablespoons flour	2 cups (4 ounces) cooked macaroni or spaghetti
½ teaspoon salt	
1 chicken bouillon cube	
½ teaspoon monosodium glutamate	

Drain mushrooms; reserve liquid. Add enough water to liquid to make 1 cup. Combine with evaporated milk. Melt butter in saucepan. Remove from heat and blend in flour, salt, bouillon cube and monosodium glutamate. Gradually add evaporated milk mixture and stir over low heat until mixture thickens and comes to a boil. Add Tabasco, turkey, mushrooms, sherry and macaroni, and bring to serving temperature. If desired, sprinkle with chopped ripe olives.

YIELD: 4 to 6 servings.

The exciting Ford Fairlane 500 Club Victoria (above)—over 17 feet long—is one of two new, bigger Ford sizes this year.

If you think it looks new...  
wait till you drive it!

...For there's where Ford's newness really pays off  
...In melting mountains...In smoothing the bumps  
...In straightening the curves

You can see that Ford's longer, lower Sculptured Look makes other cars look downright old-fashioned. But the part you can't see—the new "Inner Ford"—is what shows its stuff when you drive a Ford. It's revolutionary from the wheels up! And it feels it.

Ford's wider frame lets you sit sweet and low. It lets Ford hug the roads because of its lower center of gravity. And Ford's new front suspension, rear springs and new easy handling are part of the scheme to make you think every road is cloud-smooth.

The magic touch of the new Ford power plants makes mountains disappear. What looks like uphill feels like downhill. You get this surging power in a wide choice of new Silver Anniversary V-8 engines. Or you can choose Ford's new, more economical Mileage Maker Six, the most powerful Six ever offered in the low-price field.

There's magic in Ford's price tag, too! You won't believe this big new Ford is still priced Ford-low. But it is. Come in and test the magic of the new kind of Ford. It's a real "Wizard of Ah-h-h-h's!"
