

WCSO Program on "Children of World"

The Womens' Society of Christian Service of the Methodist church met Wednesday evening at the church. Twenty five were present.

Mrs. Douglas Drake was in charge of the program and topic for the evening was "Children All Over the World."

Piano numbers were given by Susan Drake, and Linda Smith. Mrs. Norman Peters sang, "That Little Boy of Mine", accompanied by Mrs. Victor Kreimeyer. Mrs. Lucille Owens and Mrs. Stanley Holm gave readings on "Christmas Thoughts of Children". The business meeting was conducted by Mrs. Carl McDaniel.

It was decided that the circles will meet the third Wednesday of every month. On December 19th, the Suzanna Wesley Circle will have a potluck dinner and meeting at the church with the other circles invited, to begin at 10 a. m.

Winged Performance and a Floating Ride make The Big M the road-hungriest car ever built

BIGGEST SIZE INCREASE IN THE INDUSTRY—Mercury is now over 17 1/4 feet long, more than 6 1/2 feet wide. Wheelbase is a big 122 inches. Inside there are inches more headroom, leg room—as much shoulder room, for example, as in many of the most expensive cars.

3-WAY POWER CHOICE

New 290-hp Turnpike Cruiser V-8—Wait till you feel its silk-and-dynamite performance! Optional on all Montclairs and Montereys.

New 255-hp Safety-Surge V-8 with Power-Booster Fan—A Mercury "first" in the Montclair Series. The engine fan coasts when not needed for cooling. You save horsepower other cars waste, enjoy a far quieter ride.

New 255-hp Safety-Surge V-8—Dream-car performance in the Monterey Series—Mercury's lowest priced line! Features another Mercury "first" which you get at no extra cost on all Big M engines for '57—a Thermo-matic Carburetor. It automatically controls the temperature of the air the engine breathes—helps keep it uniform summer and winter. Engine starting is easier, usable power and economy are increased.

YEAR'S MOST IMPORTANT RIDE IMPROVEMENTS

Exclusive Full-Cushion Shock Absorbers—One of Mercury's great Floating Ride features. The first shock absorbers in the industry to give such amazing bump-smothering control on rough roads without sacrificing a soft, satin-smooth ride on average roads.

New Swept-back Ball-Joint Front Suspension—Mercury introduces a new improved version of its famous suspension system. Because of the new swept-back design, the front wheels are now, in effect, pulled gently over bumps, rather than pushed into them.

New balanced weight distribution greatly reduces nose dipping on sudden stops and lurching on fast starts.

New road-hugging center of gravity—Everything is lower. Car height, passenger compartment, frame, and rear axle. You enjoy an amazing sense of "nailed-down" stability on curves.

You've got to feel Mercury's new Floating Ride to believe it. We invite you to do just that, today, at our showroom.

STRAIGHT OUT OF TOMORROW MERCURY for '57 with DREAM-CAR DESIGN

Don't miss the big television hit. "THE ED SULLIVAN SHOW", Sunday evening, 7:00 To 8:00. Station KEPR-TV, Channel 19.
