

Babson Predictions

(Continued From Page 1)
get out of debt.

39. The way to make money in the stock market is: (1) Confine your purchases to the stocks of the leading companies in each industry. (2) Diversify moderately and do not try to pick out winners, remembering that, whether you buy or sell, someone (probably as smart as you) is doing the opposite at the same time. (3) Store up cash when most people are bullish; use this cash to buy stocks when most people are bearish.

40. We are no longer on the Gold Standard but on a Political Standard. Although the Law of Action and Reaction will ultimately rule, yet periods of prosperity can artificially be extended by manipulating money rates, subsidies, and other financial props.

41. Every reader should have a little stock in one of the local banks in which he has his account. Bank stocks should make money during 1957, whatever the "blue chips" do.

INTERNATIONAL AND OTHER AFFAIRS

42. During 1957 the Administration will do everything possible to keep us out of war. It certainly will not get us involved with England, France, Israel, or their allies.

43. So long as President Eisenhower is in good physical condition (as Commander-in-Chief), he will back the United Nations with our Army, Navy, and Air Force. This is the only way in which he will be tempted ever to enter World War III.

44. The United States will not use the A-Bomb or H-Bomb during 1957 or give these bombs to any other nation. However, to save the United Nations, President Eisenhower will give that organization all the bombs it wants.

45. 1957 should be a good year to make tax-exempt gifts to colleges, hospitals, and other worthy causes. You, however, should give a stock which shows you a profit, and let the beneficiary do the selling. 1957 should be an especially good year for such institutions to make drives for funds.

46. Household holders will avoid making unnecessary purchases on installments until after the international situation clears. Several feasible plans are being considered, one of which is to have a very small tax on every gallon of oil moving through the Canal with the understanding that the money will be used for financing the Great Dam on the Nile River which the Egyptians so much need. This would make unnecessary any expropriation of the rich Middle East oil reserve and any renegotiations. Either expropriations or renegotiations will scare our investors out of making further foreign investments.

47. The big thing that Russia wants is not so much the oil fields as freedom to pass through the Dardanelles. This will be an important feature of a settlement of the Suez Canal problem. I further forecast that the Republic of Panama will attempt to undo the "steal" which we perpetrated in 1904, in order to build the Panama Canal.

48. I would be unfair to readers of this Forecast not to mention the great importance of Mr. Eisenhower's health. In connection with any building, business, investment, or other program, it should be continually kept in mind.

49. Better fed and more intelligent populations, both in the United States and elsewhere, will

NEW "JEEP" MAKES BOW

The "Forward Control Jeep" FC-150, all-new addition to the expanding line of Willys Motors four-wheel drive vehicles, is now being introduced by Willys dealers. Key feature of the new model is the "up-front" location of the cab, which allows maximum usage of the vehicle's compact wheel-base for payloads, and at the same time places the driver in the best position for split-second all-direction visibility. The FC-150 is powered by the same F-head "Hurricane" engine proved for ruggedness and economy in the "Jeep," and is engineered with four-wheel drive for off-the-road service over all types of terrain.

2700 OSC Students To Attend Jan. 1 Rose Bowl Events

OREGON STATE COLLEGE—More than 2700 Oregon State college students will travel to Pasadena, Cal., January 1 to watch the OSC-Iowa Rose Bowl game and to participate in special holiday activities.

Student rooters will be seated in choice midfield sections.

The 100-student football band will travel in a 105 passenger chartered plane. It will perform at half time and will play at various student and alumni gatherings in the Los Angeles area.

Car pools have been organized by some student living groups to help students travel to and from the Rose Bowl and bus and train "specials" have been organized at reduced rates.

All students and student wives were sold Rose Bowl tickets at half the usual \$5.50 fee.

The OSC rally squad will be flown to the game December 30 as members of the official college party. Wives of football team members will travel in the same group.

The 40-man OSC football team, Pacific Coast Conference champion, has been in practice at Santa Monica since December 19.

To give students additional travel time in returning from the game, winter term registration has been postponed two days to January 4 and 5. Winter term classes will begin January 7.

continue to increase. Important new discoveries and inventions will take place. Twenty years ago we were enjoying the prosperity brought on by the Electrical Era. Then followed the Motor Car and Oil Eras which we have recently been enjoying, plus a Chemical and Business Boom. These coming together account for the great prosperity of the last ten years. Sometime we will witness a business readjustment, but it will be followed by a new Electronic and Nuclear Era. Therefore, be optimistic.

50. In closing, I urge my friends to read the 8th Chapter of the Bible Book Deuteronomy, which was written 3,000 years ago and is as applicable today as ever. Incidentally, it mentions Egypt, which even then was an important factor in world events.

Farm Production Trend, Problems Told in Circular

Farm production in this country has tended to exceed demand for 45 years in spite of rapidly increasing population—and the trend is likely to continue, says an Oregon State college agricultural economist.

U. S. Farmers could feed more than 200 million persons with the sciences and methods now available, states E. L. Potter, OSC professor emeritus of agricultural economics. By the time population reaches the 200 million mark—estimated for 1975—science undoubtedly will have made still further advances, he says.

Farm surpluses, government programs and "too small" farms are summarized by Potter as the basic problems in a concise 14-page OSC circular of information, "Our Farm Problem". Copies of the new booklet are available from county extension agents or the OSC bulletin clerk.

A major problem cited is that one-third of the nation's farms are too small to operate economically. As improvements in labor-saving farm machines continue, the "family farm" of today may become the "too small farm" of tomorrow, Potter explains.

While the percentage of population needed to man the nation's farms is steadily decreasing, the birth rate continues higher in the country than in the city. The result is that farms must be divided into even smaller units, or a farm boy must buy out his city-bond brothers and sisters. Many a good farm boy has gone broke, Potter says, trying to buy out the other heirs even though the father left a fine farm free of debt.

HOSPITAL NEWS

New Arrivals—To Mr. and Mrs. Arthur Hardie, Condon, a 7 lb. 12 oz. girl born Dec. 19, named Teresa Jean. To Mr. and Mrs. Myron Bill, Heppner, an 8 lb. girl born Dec. 23, named Trina Renae.

Lexington News

Mr. and Mrs. Armin Wihlon were visitors in Pasco on Monday night.

Mr. and Mrs. Newt O'Hara were Pendleton visitors one day last week.

The Lexington Christian and Congregational Sunday schools held their Christmas program on Sunday night at 7:30 p. m. with the following program. Nursery and beginners sang several Christmas songs accompanied by Charlene Jones, with several of the older ones giving recitations. Next on the program was the church quartet who sang "Star of the East" accompanied by Betty Marquardt. The quartet members are Roy Martin, Harold Beach, Don Hatfield and Franklin Messenger. The main part of the program was the Christmas story, which came as the following, Christmas Carolers, the Nativity, the Shepherds, the Wisemen, and Christmas today followed by Congregation singing "Silent Night" followed by closing prayer.

Mr. and Mrs. Jack Mounds and son Stephen have moved to Randle, Washington, and are now visiting Mr. Mound's mother, in Los Angeles, California.

Mr. and Mrs. Bob Mathews and family are visiting in Newport, Oregon over the holidays.

Don Casteel is visiting with his sister and family, Mr. and Mrs. B. J. Doherty from his school in Eugene.

Wilbur Steagall is a patient in St. Anthony's hospital in Pendleton where he underwent major surgery one day last week.

Mr. and Mrs. T. E. Messenger, Sr. and son Carroll, Mitchell are visiting their children in Lexington during the holidays. A son Gerry accompanied them here, and will leave for California where he is stationed in the Marine Corps. He will be accompanied by his wife, Sue Laney Messenger.

Local News In Brief

Mrs. E. E. Gonty, Tommy and Doug left Wednesday for Renton, Washington to visit at the home of her son and daughter-in-law, Mr. and Mrs. R. E. Gonty and to see her new granddaughter, Ramona.
