PLAIN FACTS about TRAIN TRAVEL

Let's face it. You can travel higher and faster. You can also travel slower and, in some cases, for less money.

BUT...for real rest and relaxation and for more safety, comfort, service and convenience, take the all new Domeliner, CITY OF PORTLAND, to Chicago when you travel East.

Timewise...when the enjoyable minutes melt the miles like magic, it isn't so far anymore. For instance, you can leave Friday afternoon and arrive downtown Chicago in time for Church Sunday morning.

Costwise...it's less than you might think. For example a Reserved Coach Seat to Chicago from Portland is only \$59.10, plus tax. Compared, dollar for dollar, with other means of travel this is actually "Luxury Living" on wheels. And it's even less expensive when you take advantage of Family Fares.

You can stretch out and really sleep in deep leg and head rest seats or, at an extra charge, there is a wide selection of Pullman accommodations, from berths to spacious private rooms. Each car is completely air-conditioned and has extra large modern dressing rooms. There is soft, restful music in both Coach and Pullman cars.

You'll enjoy superb, reasonably priced meals of your choice in the beautiful Astra Dome Diner. You can relax with your favorite beverage in the colorful Dome Lounge Cars. You'll see America's historic Western Wonderland at eye level through broad picture windows or from the exciting new Dome Observation Cars.

It's true that in most cases you get only what you pay for. But we can honestly guarantee that Union Pacific's Domeliner, CITY OF PORTLAND, gives you more, much more, for your travel dollar.

See for yourself. The next time you're by Portland's Union Station, tell the man at the gate you'd like to go aboard the CITY OF PORTLAND. You'll see why we urge you to compare because, when you do, we know you'll agree that no other means of travel offers so much.

A prominent banker tells you why—

**PART OF YOUR PRESENT
INCOME SHOULD GO INTO
U. S. SAVINGS BONDS!**

**By Mr. Fred S. Florence
 President, Republic National Bank
 Dallas, Texas, and President,
 American Bankers Association**

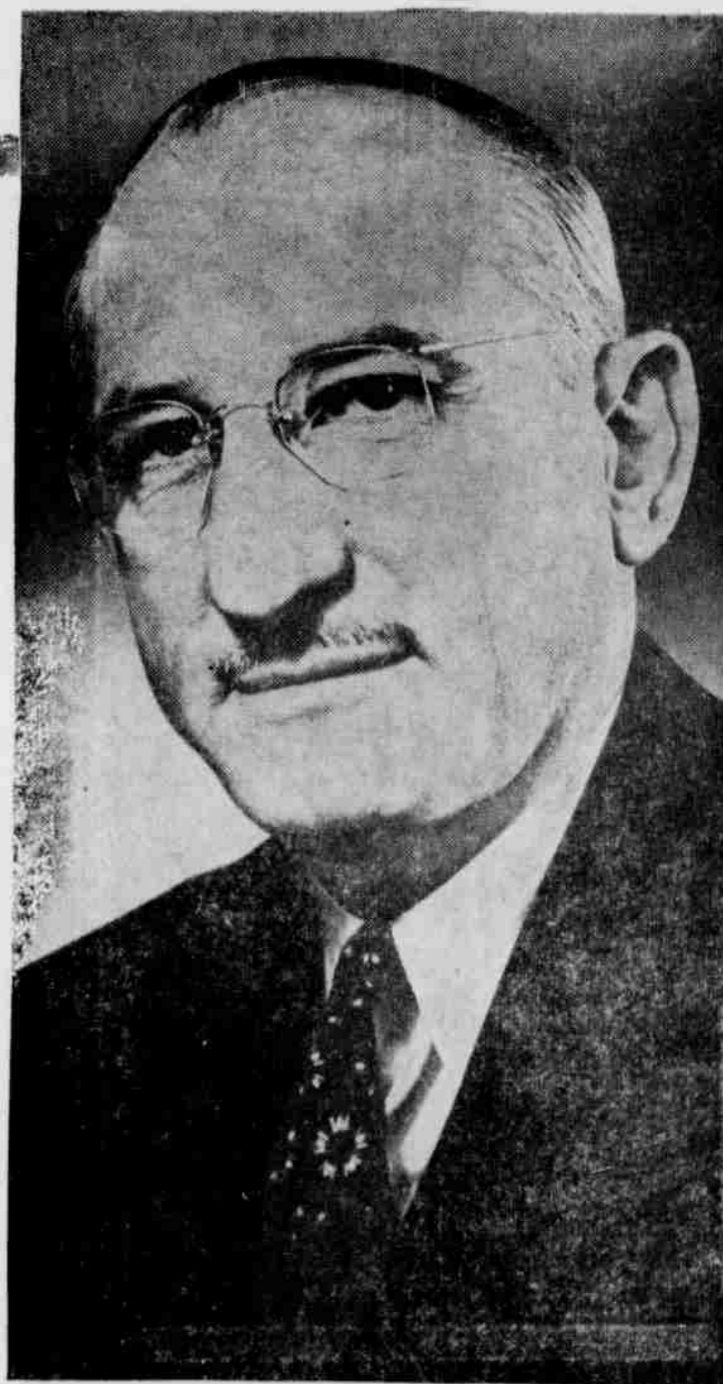

Most of us Americans are earning more now than ever before. But when money comes easy, we have a tendency to let it go just as easily. If we're wise, we'll be sure and save part of every paycheck and invest it for our own future benefit.

Here are three good reasons why U. S. Series E Savings Bonds make a good foundation stone for any investment program.

- You're sure of your principal in Savings Bonds. It isn't subject to market fluctuations.
- You're sure of your returns in Savings Bonds. Your Government guarantees you an average interest of 3% per year, compounded semiannually, when your Bonds are held to maturity.
- You're sure of the future when you invest regularly in Savings Bonds. There's nothing like the feeling of security that a backlog of at least 6 months' living expenses in safe, sure U. S. Savings Bonds will bring you.

I sincerely recommend to every one of my fellow citizens that he talk with his banker or investment counselor about making U. S. Savings Bonds a part of his investment program.

If you want your interest as current income, ask your banker about Series H Bonds that pay interest semiannually by Treasury check. They earn an average 3% when held to maturity.

For the big things in your life, be ready with U. S. Savings Bonds
