

Heppner High School SCOOP

By Mary Jo Stewart
The annual P-TA—FHA sponsored style show has been set for April 17 at 8 o'clock in the multi-purpose room. Mrs. Homer Hager, future homemaker advisor states that garments would be modeled by the students in the home economic classes. Heppner's chorus is also slated to perform. All parents and students are urged to attend. Refreshments will be served by the Parent-Teacher Association.

Due to conflicting dates, Mary Jo Stewart will not attend the Future Business Leaders' Convention in Corvallis, this weekend, announced Margaret Kirk, FBLA Adviser. Francine Francis, first senior alternate, will go in her place. Delegates for the gathering were chosen on a service record basis.

Carole Groshens and Butch Laughlin, junior candidates, were crowned King and Queen of the annual Band Carnival, April 6. Second place winners in the voting were the junior high candidates, Fern Albert and Ronnie Gray. The sophomores posted a close third, seniors fourth, and frosh fifth.

Events for the next week are: April 12—Baseball game, Echo there

April 15—National School Assembly—11:00 a. m.
April 16—EOC College Choir at Heppner

April 17—Style Show.
Senior weekend at the various colleges has been announced for April 26-27. Several seniors will visit University of Oregon, Oregon State, OTI at Klamath Falls, Portland University, Barbers College, and other institutes of higher learning.

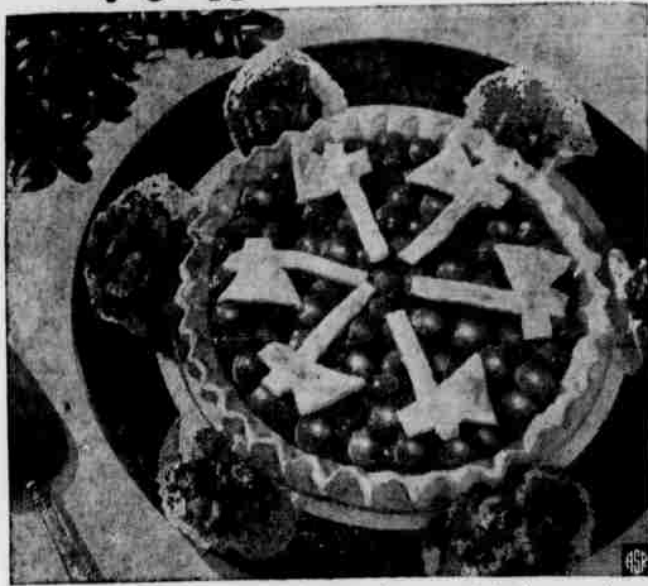

PONY KICKS

By Shirlee Upton
Mrs. Boulden's Seventh Grade
Recordings of the play "Dick Whittington and His Cat" are being made by the 7B students. So far they have proved satisfactory.

Reports on different countries is being made by each student. As the reports are given notes are taken and a test is given later.

Five pupils were absent from school last week due to swollen

Jog Appetites With Fruit

This is the time of year when meals are apt to become humdrum. It's no secret that flavorsome canned fruits give a big lift to sluggish appetites. Serve them as:

FIRST COURSE—Fruit cocktail, or chilled grapefruit and orange sections dressed up with a couple of drops of mint flavoring.
SALAD MEAL—Tangy purple plums around a peach half filled with cream cheese and nuts on crispy greens. Serve hearty chowder type soup with this salad.

MEAT GARNISH—Bake spiced fruits to serve with meat, poultry or fish meals.

DESSERT—Canned fruits as they come from the can or jar, alone or in combination, in cobbler, or in pie.

Jubilee Cherry Pie

1 cup sugar
8 tablespoons cornstarch
1/4 teaspoon salt
1 cup juice drained from canned cherries

1/4 teaspoon red food coloring (optional)
3 cups drained water pack red tart pitted cherries
2 tablespoons butter, or margarine

Pastry

Mix sugar, cornstarch and salt in a saucepan. Add juice and coloring; stir until smooth. Cook until thickened and clear, stirring. Remove from heat; add cherries and butter. Pour into an unbaked 9-inch pastry lined pie pan. Cover with top crust, lattice, or cut-outs. Bake in a hot oven (425 degrees) about 40 minutes. One 9-inch pie.

throat glands. The absentees were Dennis Sanders, Darlene Turner, Ronnie Belsma, Nat Webb, and William Rill.

Miss Glove's Fifth Grade
Eyes and ears of them is the subject of study in the Health class. Outlines are being made on the subject.

Good citizens for this week are Gail Hoskins and Daryl Dick. The science class are now studying water insects. The following are three small theses' on same written by three fifth grade students:

The May Fly
The may fly has gills. Both bird and fish will feed on them. So long as they are in the water they have to watch out for fish. When they are young they live

in the water for days. When they are about to become a flying insect. They come out of the water and shed their skin. They come out of their skin with four wings. They rest for twelve hours. Sherron Bunch

The Water Beetle
The Water Beetles find a reed and lay one egg in the reed. When they are about ready to hatch the larva becomes dark. When they are hatched they have to go to the surface for air. It is commonly known as the "tiger". The beetles are very swift swimmers. They usually carry an air supply under their wings. Diana Fulleton

The Dragon Fly
Dragon flies are beautiful clear-winged insects. They fly very fast. A dragon fly eats many mosquitoes. It is a helpful insect. The lower lip under the dragon fly helps to catch flies. In winter it lies under the mud waiting for spring. When Spring comes it lays its eggs. But every Spring Mother Nature will return again. Mary Ann Johnson.
