THE ONE AND ONLY ROGUE

You wouldn't question the interest legislators have in steelhead fishing if you had heard the howl around the Capitol when a state game commission biologist told of a plan, now in the studying stage, to close the mid-section of the Rogue River from Galice to Gold Hill for angling. Angling in the state as a whole, the commission claims, has increased 300 per cent since 1940. Since the game commission has

always been a free target for sports and commercial fishermen we'll shoot.

Closing any part of the Rogue would be bad advertising for Oregon at the top level. Oregon's famous Rogue River is universally known as the one stream where the steelhead, the fastest and fiercest fighter of all game fish will take a fly consistently.

If any restrictions are imperative, reduce the bag limit. The ethical fly fisherman won't mind, particularly those who come from N. Y., Rome, Hollywood, Florida, England, etc. Many of these, with rubber gloves on their hands, release their fish after the fight. Pure sport.

NOT ALL ROUTINE BILLS
Making a high tempo clearance record for the session the legislature this week sent 47 bills to the governor for his action.

Here are brief notations of the more important bills in the package. —Raises from \$500 to \$750 a year the state grant to blind students attending college.

—Allows dependent children's aid from welfare funds for children up to 18 and those living with relatives.

—Appropriates \$39,048 for State Soil Conservation Committee.

—Requires annual instead of biennial publication of list of claims, warrants and other information by county clerk.

—Changes date to April 15 for reporting gifts subject to tax, date for paying gift tax from March 15 to April 15.

—Approves \$974,627 budget for Oregon State Fair.

—Appropriates \$764,870 for Hillcrest School for Girls.

HUMANITARIAN
The acceptance of providing adequate care for the state's wards has a pattern that is at variance with popular conceptions. Many people have a dark idea that legislators are always the big, loose spenders of public funds. That the state board of control is often just three old Scrooges and they, the voters themselves are the all-wise conservators of our financial economy.

According to the records the joy and gloom duo are the boys who twist the wheel of fate for state's wards.

Accelerated spending under a higher education pressure group regime has for the past 15 years caused state wards immeasurable suffering and has handicapped readjustments for lack of adequate institutional buildings and modern care. This is the private opinion of a majority of the members of ways and means committees for many years.

Oregon taxpayers also have been looser when state government building was stunted and needed space had to be, and still is rented in privately owned buildings.

And we are forcing the education machine beyond its efficiency and spending for more capacity at a loss of a good finished product?

While we are looking for an education engineer who can make the educational juggernaut efficient we should consider basic human requirements.

The recent 12-week inspection of state institutions made by Secretary of State Mark Hatfield shows these "imperatives":

—A start on the Dammasch Portland State Hospital, twice voted by the people of the state at general elections.

—Expansion of facilities at Fairview Home, where a waiting list of mental deficient has reached a "sobering" length.

—Provisions of a teen-age psychiatric facility because none now exists except in amalgamation with adults at the state hospital.

—Alleviation of hazardous housing conditions for children at both the Deaf and Blind Schools.

—Re-evaluation of planning for MacLaren School for Boys, provision of additional dormitory space, a full-time chaplain and chapel.
