NOTICE OF SCHOOL ELECTION UPON QUESTION OF INCREASING TAX LEVY OVER AMOUNT LIMITED BY SECTION 11, ARTICLE XI, STATE CONSTITUTION
 Notice is hereby given that an election will be held in School Districts 10, 25, 35c, 40, 1c, and 12, of Morrow County, State of Oregon, on May 10, 1957. The election will begin at 2:00 P. M., and will be held in the school

house in each of said component districts. The purpose of submitting to the legal voters of said district the question of increasing the tax levy for the fiscal year 1957-1958 over the amount limited by Section 11, Article XI, of the Constitution of Oregon.
 The reasons for increasing such levy are:

1. The low tax base due to the fact that some districts lost their base entirely and others could only be increased by the legal, allowed 6% per year. 2. Increased cost in maintaining buildings and making needed repairs. 3. Increases in teachers salaries. 4. High cost of supplies and equipment and repairs to some of our older buildings. 5. The purchase of three new busses for District 35c.

The total base of all Districts in Morrow County Rural School District is \$154,074.94.

The amount of tax, in excess of 6% limitation, proposed to be levied for said fiscal year is \$305,576.63.

Dated this 18th day of April, 1957.

Attest:
 Jack C. Flug, District Clerk
 Fredrick Martin, Chairman,
 Board of Directors 6-7c

Wheat Prices May Exceed Support Price

OREGON STATE COLLEGE—An Oregon State college agricultural economist says chances look good for 1957 wheat crop prices to run somewhat higher than the government support price. Former wheat acres shifted into the Soil Bank and subsidized exports are bolstering the wheat price picture, M. D. Thomas states in the current issue of OSC's "Agricultural Situation and Outlook" circular. Copies of the circular are available from county extension service offices.

The coming wheat crop, both nationally and in the Northwest, is not likely to be large enough to meet domestic needs and exports in the year ahead, according to current crop forecasts. This points to prices high enough to continue bringing government wheat out of storage as has been the case with soft white wheat in recent months, says the economist.

The kind, location and amount of wheat exported varies considerably with government export payment rates fixed daily by the commodity stabilization service in Washington, D. C. Changes in these rates are difficult to predict in the present unsettled world wheat picture and add to the uncertainties in wheat marketing, Thomas states.

During the current season, Northwest wheat exports may reach 175 million bushels. The economist explains that exports of more than 100 million bushels from the region in the season ahead would come close to cleaning out supplies here. But he thinks the crest of the subsidized exports may be past and that regional exports may drop back toward the 1955-56 shipments of 63 million bushels.

Mr. and Mrs. William Barratt have had their guests for several days, her parents, Mr. and Mrs. Howard P. Ferguson of Oswego.
