NOTICE OF MEETING OF COUNTY BOARD OF EQUALIZATION
Notice is hereby given that on Monday, May 13, 1957, the Board of Equalization of the County of Morrow, Oregon, will meet at the County Courthouse in Heppner, Oregon, to publicly examine the assessment rolls for said County of Morrow, for the year 1957-1958, and to correct all errors in valuation, description, or quality of land, lots or other property assessed by the assessor.

The ratio between assessed and true cash value determined by the Assessor pursuant to ORS 309.028 is 21 percent.
It shall be the duty of the persons interested to appear at the time and place appointed. Petitions for adjustment of assessments must be filed with the Board of Equalization not later than the end of the first week that Board is in session.
HARRY DINGES
Assessor of Morrow County 7-9c

NOTICE OF SCHOOL ELECTION UPON QUESTION OF INCREASING TAX LEVY OVER AMOUNT LIMITED BY SECTION 11, ARTICLE XI, STATE CONSTITUTION
Notice is hereby given that an election will be held in School Districts 10, 25, 35c, 40, 1c, and 12, of Morrow County, State of Oregon, on May 10, 1957. The election will begin at 2:00 P. M., and will be held in the school house in each of said component districts. The purpose of submitting to the legal voters of

said district the question of increasing the tax levy for the fiscal year 1957-1958 over the amount limited by Section 11, Article XI, of the Constitution of Oregon.
The reasons for increasing such levy are:
1. The low tax base due to the fact that some districts lost their base entirely and others could only be increased by the legal, allowed 6% per year.
2. Increased cost in maintaining buildings and making needed repairs.
3. Increases in teachers salaries.
4. High cost of supplies and equipment and repairs to some of our older buildings.
5. The purchase of three new busses for District 35c.

The total base of all Districts in Morrow County Rural School District is \$154,074.94.
The amount of tax, in excess of 6% limitation, proposed to be levied for said fiscal year is \$305,576.63.
Dated this 18th day of April, 1957.
Attest:
Jack C. Flug, District Clerk
Fredrick Martin, Chairman, Board of Directors 6-7c

County Agent News
(Continued from page 2)
In cleaning up everything on the farm that might be a safety hazard or a place for fire to start. Discard the accumulation of "white elephants"—old furniture, goods and miscellaneous things. Fix up properly all defects in heating and electrical equipment. Break up careless habits which may cause falls, burns, scalds and other injuries. Safeguard children from the hazard of matches, medicines, kerosene, insecticides, guns, knives, mowers, electricity, unsafe livestock or rides on tractors or rides on other machines. Check up as a family game—let every member of the family understand and do his or her part in reorganizing hazards and avoiding fire and accident risks.

Time is growing short for the filing of applications for payment of 1956 wool incentive program. These must be filed with county ASC offices not later than April 30. Payments under the 1956 program will be made this summer when payment rates are determined. Payments will be made on the national average price received by producers for shorn wool during the 1956 market year, April 1, 1956 to March 31, 1957. Any marketings after March 31 will be eligible for payment under the 1957 program. Some wool producers still think that the incentive payment makes up the difference between the price they get for their wool and the 62 cents incentive level. Actually the producer who sells his wool for the highest price gets the largest incentive payment. Those that sell at a low price will get a smaller payment.

During the month of March 473 cattle were tested for Brucellosis in Morrow county. Of this number 7 were reactors getting a per cent reaction of 1.497. This percentage is considerably over the 1% which is a requirement to become a Brucellosis free county. When Morrow county became a Brucellosis modified free county over a year ago reactors were less than 1% in not more than 5 herds. It appears as though testing will need to be done on a fairly wide-spread scale in order to keep the percentage down. During the same month 111 calves were vaccinated for Brucellosis which is a practice that many of our livestock operators should consider quite seriously to protect those replacement heifers for their herd. Records have shown that calfood vaccinated heifers have brought higher prices when sold. One hundred twenty head of cattle were tested during this same period for tuberculosis with no reactors found. Of 17,590 cattle tested in the state of Oregon during March TB reactors were found in only three counties, Jackson, Marion and Multnomah.

Plans have just been completed for holding the annual 4-H Livestock field day at the Fredrick Nelson farm near Lexington. This will be the third year that the field day has been held at that location. The field day was changed from being held at the fair grounds to the Nelson farm because of its more central location for the club members involved. The date has been changed from the recently scheduled May 25 until May 27. The change was made due to the conflict with the State Conservation Man of the Year field day which will be held at the Kenneth Peck farm on Saturday, May 25. The date changes from Saturday to a Monday—the 4-H field day. During the day 4-H

WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

There is substantial concern along Potomac that major oil companies now comprise a supra-government taking precedence over regularly constituted government and even Congress.

Sen. Matthew W. Neely (W. Va.) says, "The oil lobby appears to be more powerful than the President, the Congress and the people."

Headed by Sen. Jos. O'Mahoney (Wyo.) a Senate Anti-trust and Monopoly committee is investigating why Suez crisis immediately resulted in petroleum price increases.

Oil shipments to Europe are now being handled by a special committee of 15 major oil companies who have been pledged immunity from anti-trust law violations by Attorney General Herbert Brownell while working on emergency measures together. The first emergency measure taken was a price hike, despite fact Justice Dept. does not approve price fixing.

But Sen. Alexander Wiley (Wis.) wonders why. He is also anxious that Justice Dept. secure the answers on why prices were jumped immediately.

Many senators complain major oil refuses to lay cards on table; i.e., give Congress information needed to plot course for best interests of consumers and U. S. defense.

Herein lies great danger. Obviously, oil is too important to both national defense and economy to permit drawing any tighter what already appears to be a right, tight monopoly, perhaps.

even the strongest cartel ever put together.

While no thinking American wants to see any industry nationalized as was done by the socialistic British Labor Party, major oil, through arrogance, back-door dealing, may bring about such a sad result.

There still stalks the land those who would promote U. S. socialism, ready to jump on any pretext to justify their doctrines. Major oil, by withholding information, by thwarting the people's elected representatives, could very well furnish them the opportunity.

Because there are emotional factors entering the picture, it is possible that American troops should safeguard Arabian oil. It is even possible major oil is operating in the best interests of the nation.

But as yet, major oil has sold neither one of these propositions to the public. And an uninformed public is grist for the mills of demagogues.

At present major oil appears at three-way crossroads. It can either reveal full facts of their operations and show where they are justified. Or, it can reveal full facts, admit certain practices are contrary to free enterprise, and take steps to correct them. Or, it can, by continuing to keep people in the dark, run the considerable risk of nationalization.

But major oil cannot continue to ignore the U. S. Senate. Even Marilyn Monroe's newest husband found that is impossible.

Neither should major oil be permitted to continue ignoring the Senate. And, it appears, the day of reckoning, postponed by such maneuvers as executive orders burying files of information, and State Dept. machinations, is coming nearer to hand.

livestock members fit, block and groom dairy, beef, sheep and swine with judging and showmanship contests in these classes. The field day is especially helpful to those 4-H club members who participate in the Oregon Wheat Growers League sponsored fat stock show and sale which is held annually in early June. The field day provides an opportunity for last minute preparations for those who participate in the show. Club members should mark this date down on their calendars and hold it open.

Last week we discussed recommended vegetable varieties for 1957 and promised to discuss later planted vegetables this week. Since the ground is warmed up somewhat now it will soon be time for planting carrots. Recommended varieties are Red Core Chantenay, Nantes, Emporator, Golden Spike and Morse Bunching. For those who like turnips—Shogoin and Triple Top White Globe are two varieties recommended. Parsnips—Hollow Crown and Guerne. Bush Beans—Processor, Wade, Tender Green, Seminole are later varieties; Tender Long, Top Crop and Contender are early varieties. Pure Gold is an early wax bush bean. Early Pole beans are Blue Lake (SM1) and Kentucky Wonder. Later varieties are Blue Lake (Asgrow 231) and Oregon Giant. Henderson's bush is a small bush lima with Fordhook 242 recommended large bush lima. Christmas is an early pole lima bean.

About this time of the year we have a number of inquiries regarding recommended vegetable varieties. With the nice days we have had this week many have been able to get out into the garden and are checking for last minute recommendations. While most of our gardeners have their own preferred varieties there are always new ones coming onto the market that could be tried to see if they might not be a bit superior to the old standard varieties grown. The college recently compiled a list of recommended varieties for 1957 which might be of some value in planning your garden. For lack of space we will list this week only those varieties which can be planted at this time. Leaf lettuce—Salad Bowl, Oak Leaf, Slobolt, and Bibb; head lettuce—Cornell 456 and Early Great Lake; Spinach—New Zealand, Bloomsdale, Long Standing, Nobel and Viking; Radish—Purple White, Comet, Sparkler, Cherry Belle, Big Scarlet Globe; Peas—Bush-Thomas Laxton, Progress No. 9, Wando, Freegonian, Little Marvel; Peas—Tall-Alderman, Telephone and Lincoln; Onions—Surprise F Hybrid, Abundance F Hybrid, Yellow Globe Danver which is the main crop and for

storage, Sweet Spanish which is early and Epoch F Hybrid; Cabbage—Golden Acre, Copenhagen, Marion Market, Danish Balthead, Chieftain Savoy; Beets—Seneca, Detroit, Detroit Dark Red, Tall Top Early Wonder and Green Top Bunching.

Of course there are a number of others that do well but these varieties are well worth trying if you are not using one or more of them now.

USED CARS WITH AN OK THAT COUNTS
1956 Chevrolet Sport coupe \$2350
1956 Chevrolet Del Ray 2 door \$2050
