### WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDE

Probably nothing since the approach of His Britannic Majesty's forces waving torches in the 1812 hassle has thrown such a chill into Washington as State Secretary John Foster Dulles' tub-thumping for a foreign aid plan that will span the next ten years.

Sen. Homer Capehart (Rep., Ind.) voices the sentiment that instead of giving away economic aid, loans should be made instead, and that military aid should be handled by the defense department.

Now the question of economic aid more or less seems to boil down to this basis: Are the American taxpayers supposed to submit to ten or more years of shelling out under the name of foreign aid a global dole. Or is foreign economic aid to be considered as helping finance building up undeveloped economies? If the latter, then it follows that there is expectation of a profit from these developments.

purpose of developing the economy of their colonies. Surely, some profit is expected from these developments. And surely, if there is good faith, security could be given that would not require the presence of a U. S. fleet to guarantee it.

Actually, with the announcement of the British "New Look" in armament whereby their forces are to be pulled down to what amounts to an electronic home defense, defense of British possessions has now become almost solely job of the U. S.

So the British have worked out a cozy little scheme. Unless the U. S. gives money to develop these colonies, the restless natives will turn to communism. But if they do turn to communism, the U. S. Navy and Air Force will be the only instrument left in the world to keep Russia from moving in.

### Boardman Notes

Daily Vacation Bible school of Community church will start on Monday, June 3, and will last through Friday, June 14. Miss Zelma Cowan will be superintendent. Other teachers will be: beginners, Mrs. Elvin Ely, Mrs. Margaret Klitz and Mrs. Emery Lyons; primary, Mrs. Bob Miller, Mrs. Florence Root and Mrs. Lowell Shattuck; juniors, Miss Jean Scott and Mrs. Arnin Hug; intermediates, Mrs. Russell Miller and Mrs. Clifford Jones, Mrs. Frank Marlow will be musician. There will be a program, presented by the pupils on the evening of June 14 at the church. School starts each morning at nine o'clock, and will be dismissed at 11:30 a. m.

The annual Rural Mailbox Improvement Program will be observed this year from June 3 through June 15, announces Flossie Coats, Boardman postmaster. Names of box owners should be inscribed on the side visible to the approaching carrier. Boxes and supports should be painted white or aluminum color. Many boxes, Mrs. Coats states, on the Boardman rural route already meet all the requirements. Let's work together and make it 100 per cent during the Rural Mailbox Improvement Weeks.

**4-H CLUB NEWS**

**BUSY STITCHERS**  
The Busy Stitchers 4-H Clothing Club met May 28 at the home of Janet Wright. Roll call was answered by naming a spring sport. Present were Carole Anne Anderson, Connie Anderson, Celia Boulden, Helen Graham, Meredith Thomson, the hostess and Mrs. Walter Wright, leader. Refreshments were served. August 6 was tentatively set as the next meeting date which will be at the home of Meredith Thomson. Helen Graham will demonstrate on pockets and Meredith will give some modeling tips. Meredith Thomson, reporter.

### MERRY TAILORS

The Mary Tailors held their May 15 meeting at the Lone school cafeteria with our leader, Mrs. C. E. Brenner. We voted on whether to have a swimming party or a picnic. The vote was for a swimming party and we are going to have one following the next meeting.

For refreshments Mrs. Phill Emert served cake, ice cream and punch.

Cheryle Lundell, reporter.

### OSC Gives Results Of Columbia Basin Fertilizer Survey

How much nitrogen are Columbia Basin wheat farmers using to boost yields on summerfallow land, and what do farmers think of their fertilizer programs.

Henry Stippler, USDA agricultural economist at Oregon State college, recently completed a survey of more than 300 summer-fallow wheat farmers in Wasco, Sherman, Gilliam, Morrow and western Umatilla county to find answers for these and related questions.

yield increases. Fertilizer use in the area is a recent development. Ninety percent of the Basin's summerfallow wheat farmers who are now using fertilizer applied it for the first time in 1950. About half of them began using it between 1950 and 1953.

Small-acreage farmers, those with 720 acres and under, began using fertilizers earliest. Now, a higher production of farmers on medium and large farms are using nitrogen.

Miss Janice Driscoll arrived home Monday to spend the summer with her parents, Mr. and Mrs. James Driscoll. She has been attending school at St. Paul's in Walla Walla.

**Get in the fine-car swim at the low Ford price!**

There's no need to pay a "fancy price" to enjoy fine-car luxury. Ford is lowest priced\* of the low-price three, yet offers values you'd expect only in cars costing far more!

To start with, you can easily pay twice the money, and not find lines that can hold a candle to Ford's for loveliness, or just plain good taste.

But step inside. That's when you'll find the real evidence of Ford's quality!

And, on the way in, note that Ford offers door checks that hold doors open in either of two positions—for easy entrance or exit. A little thing. But, in a fine car, why not? Then, inside, notice how comfortable those plush, foam-rubber seats are. They'll stay that way. And on long trips. For they're scientifically contoured over non-sag springs. Your rear-seat passengers are treated extra kindly, too—with spring assists to help them open and close the doors—with the most leg room in Ford's field!

Fine cars are smooth—and that's another place Ford really shows its stuff!

Ford delivers its famous V-8 power smooth as a whisper. That's because only Ford takes the pains to electronically balance each engine while running under its own power. Not even the makers of the most expensive automobiles go this far to bring you super-smooth performance.

Ford rides fine-car smooth and quiet, too. You can thank the new "Inner Ford" for that. Ford, for instance, has a swept-back front suspension that actually "rolls with the punch" of every road bump.

Ford's rear springs automatically adjust to give the right ride for every road. And Ford keeps things quiet, with the most sound insulation in its field.

Fine cars are built to stay solid. So's Ford!

Ford has the only frame in its field to make use of rugged tubular steel beams. No car at the price offers so many roof-strengthening beams. Expensive cars aren't built of thicker body steel or with sounder engineering skill. Then, of course, in Ford you can have all the power assists and other conveniences found in fine cars. And they cost far less in Ford. Yes sir! In every feature, every part, Ford is the fine car at half the fine-car price. Come in and see!

Get in on the fun and savings now in the new kind of **FORD**
