WHAT'S

D. A. Short, your Telephone Manager for Heppner

Here's a new kind of "calling card." For telephone calling, that is. These odd looking cards are made by a process called "printed wiring." In certain kinds of telephone equipment they can form electrical pathways, replacing an intricate maze of wires. I expect you've heard about Automatic Answering Sets-phones that answer your calls when nobody's in. Well, they've got printed wiring in them. The cards eliminate a tremendous amount of delicate soldering and connecting, yet help us bring you better service.

Fire's a big hazard this time of year. So it's a good time for us all to get behind Smokey Bear's Fire Prevention Campaign. They say fire burned about 9 million acres of forest land last year. We can help by being extra careful to put out matches, cigarettes and campfires. I'm happy to pass along Smokey Bear's slogan right here: "Only You Can Prevent Forest Fires." Good point for all of us to remem-

Going off on a trip soon? I know you'll find your phone a big help when you get to those last-minute details. Like arranging for the dry cleaning to be done, Or getting someone to water the lawn. Or stopping the milk delivery. One of the nice things about a telephone is that it's right there, anytime you need it. It really smooths the way for you. And that's what it's for. Pacific Telephone
