## Little Neglect May Breed Great Mischief

By Phil Blakney  
 Nature protects our body enclosing most of it in skin. As long as the skin is unbroken, infectious germs are kept out.  
 Therefore, it is not wise to neglect any scratch, cuts, skin abrasions which open the door to great mischief. Apply first aid as soon as possible.  
 Right now is a good time to check your supply of first aid kits and to get one of the new powerful antiseptics that are so safe and dependable. Of course, unless an accident is a trivial one you will immediately consult with your physician.
