"To Live Is Not Merely to Breathe, It Is to Act"

By Phil Blackney

How you live now influences your future life. You may have to pay a penalty later if you neglect following the simple rules of good living.

Medicines are created to help you prevent and overcome sickness. It is important to take the specific one that will help you the most.

You can act now to live a longer and healthier life by consulting your physician quickly when you are ill, and always getting any medicines from a pharmacist. We both are dedicated to work for your better health.

People who can easily pay any price say:

"Pay more...what for? Ford's the buy!"

Why? Because this 1957 Ford gives you the advanced features, the solid ride, the effortless handling that you once expected to find only in expensive cars. And when it comes to looks, where can you find fresher styling than in the sculptured-in-steel lines of this new Ford?

Ford's superiority is evident in many places. In the vital rear axle, the pinion gear that turns the rear wheels is straddle-mounted... supported between two anti-friction bearings instead of being "overhung" from a single bearing. This makes operation quieter, smoother and longer-lasting. It's a feature that Ford shares with only one other car maker in the world—Rolls Royce.

Or consider Ford's famous V-8 engine. No other manufacturer in the industry today electronically balances every V-8 engine, while operating under its own power, the way that Ford does. This means you get a smoother-running engine—the finest V-8 in Ford's 25 years of V-8 leadership.

These are only a few of the important hidden values that are yours in Ford. But they indicate why so many people who can pay almost any price for a car—people who have driven expensive cars for years—are buying Ford today. Action Test this great performing car at your Ford Dealer's just once and you, too, will ask, "Pay more... what for?"

YOU CAN SPEND HUNDREDS MORE BUT YOU CAN'T BUY BETTER THAN THE NEW KIND OF FORD
