"Even with six children in the family we live electrically for only 40¢ a day!"
... says Mrs. Paul Fortier, a Pacific Power customer

"Modern electric appliances make our living much more pleasant. I'll admit I'd be lost without electricity to help with the household jobs. And the daily cost of operating all our appliances is only 40¢."

The cost is low; the value is high. That's why Mrs. Fortier, who lives in Yakima, Washington, and thousands of other homemakers throughout Pacific Powerland are using more and more electricity all the time. Count up the jobs electricity does in your home and you'll agree: PP&L electric service is today's biggest bargain.

You live so much better when you make full use of hard-working PP&L electricity. See your electric appliance dealer today for full information about modern, work-saving electric appliances.

PACIFIC POWER & LIGHT COMPANY

The eight members of the Fortier family make generous use of all these electric appliances at a daily cost of only 40¢:
