Physicians and Pharmacists study for many years before receiving a license to practice. We must pass a state examination to prove that we have learned how to properly take care of your health.

We both have a particular duty to perform. Your Physician's learning concentrates on the diagnosis and treatment of disease, and the preservation of your health. We pharmacists study how to compound, dispense, and protect medicines. We must know the proper dosage of every drug because it is our legal duty to make certain that every prescription we dispense contains a safe dose.
