Church Group Asks Lifting of Ban

Jehovah's Witnesses of the Hermiston congregation Wednesday, Sept. 25, met to approve a petition asking the Dominican Republic to lift its ban of last July 25 restricting the religious activity of the movement there.

According to Ted Poland, presiding minister of the Hermiston Congregation the lengthy petition cited specific names and places of police brutality that were personally authenticated by eight of the ten American missionaries deported August 3 from the Dominican Republic. The missionaries related their experiences at a regional assembly in Baltimore, where the petition was originally adopted August 24 by 33,091 of Jehovah's Witnesses in attendance.

The petition was addressed to Generalissimo Trujillo, acknowledged dictator of the Caribbean republic, and named the Roman Catholic church as sharing the blame for the government's action.

Reporting on the atrocities described in the petition, Poland said: "In one sector whole families were taken to prison and the male members of families were beaten senseless before their own wives and children. Other male Witnesses were kicked and hit with rifle butts until they were bleeding and fell exhausted; some were beaten and left unconscious on the ground in the prison with blood running out of their ears, nose and mouth."

"Christian people all over the earth abhor such brutality as this," Poland said. "We believe freedom loving people should be informed of it and have published the entire statement of facts with the petition in the October 1 issue of our official magazine, The Watchtower, which is published in 46 languages. At our meeting tonight we determined to try to reach every home in Morrow and Umatilla counties with this account."

Shortages of Tree Seedlings Listed; Order Plans Given

Shortages of tree seedlings for commercial plantings continue this year with rationed supplies from the Oregon forest nursery expected to fall far short of demands for the fall planting season says Charles Ross, Oregon State college farm forestry specialist.

An inventory of about 7 3/4 billion conifer seedlings at the forest nursery is reported by the state forestry department. More than five million of these are Douglas fir seedlings earmarked for state forest rehabilitation, mainly the Tillamook burp.

A Hallowe'en "No-Trick Treat"!

For a simply super treat to serve at a Hallowe'en party, make good old-fashioned homemade donuts. This recipe is excellent, and easy to make . . . and if you haven't done any deep-fat frying lately, you couldn't find a better, or easier, recipe for practicing. Your guests will go for these delicious donuts. And you can be sure they will thoroughly enjoy the gay little coconut and cherry faces. For other occasions, decorate the donuts by placing cut cherries in a circle on top of the coconut.

- | | |
|---|---|
| 3 1/2 cups sifted flour | 4 egg yolks, well beaten |
| 4 teaspoons double-acting baking powder | 1/4 teaspoon vanilla |
| 1 1/2 teaspoons salt | 1/2 teaspoon lemon extract |
| 1 teaspoon nutmeg | 1 cup milk |
| 2 tablespoons shortening | Tart red jelly, beaten well with a fork |
| 1/4 cup sugar | Baker's Angel Flake Coconut |
| | 10 maraschino cherries, cut |

Sift flour once, measure, add baking powder, salt, and nutmeg, and sift together three times. Cream shortening, add sugar gradually, and cream until light and fluffy. Add egg yolks and flavorings and beat well. Add milk and mix thoroughly. Add sifted dry ingredients, beating until smooth. Chill dough for easier handling. Roll dough 3/4-inch thick on floured board. Cut with floured 2-inch biscuit cutter. Fry in hot fat (375° F.) until brown, turning when tops of donuts become rounded. Drain on absorbent paper. Dip donuts halfway into tart red jelly, then dip into coconut. Place coconut-side up on large tray or platter and form faces on top of each donut, using cut maraschino cherries.

The remaining conifers and about one-quarter million broad-leaf species will be available for sale at prices ranging from \$9 to \$12 per thousand seedlings. Applications for order blanks can be made now with the state board of forestry, Salem.

Order blanks will be mailed out in October according to Charles Ladd, chief farm forester, state forestry department. Purchase limits for each species are shown on order blanks so supplies can be stretched among as many persons as possible, Ladd explained.

Douglas fir purchases are limited to 50,000 seedlings per order, and other species range from 1,000 to 5,000. Shipment of seedlings will begin in November.

While the forest nursery supply is small in relation to demand, Ross says it is 1 1/4 million larger than last year. In addition, Woods' Nursery, Salem, expects to have a limited supply of seedlings available mostly Christmas tree planting stock. Ross says this is the only known

conservation reserve but pays up fered for 10 years when plant- to 80 percent of planting costs lngs are made for forestry purp- the first year. Contracts are of- uses.
