

"OVER THE TEE CUP"

By Jackie Labhart

The contents of my tee cup are rather weak this week as I was only able to play the course once since our last get together over my tee cup . . . due the frivolous fact that I fell in the creek while trying to retrieve my golf ball. Well, I got my ball and a dilly of a cold with it as I didn't have enough sense to go home and change my clothes. Thus the lure of the links was overcome by my desire to cure my cold before ladies day this week.

And as usual we held ladies day Tuesday and 21 hurricanes (they are named after women you know) literally blew onto the course at the appointed hour. In my opinion this was the worst ladies day (weather-wise) we have ever had; but if you were driving with the wind it was somewhat advantageous.

Dee Gribble once again shot low score but the prize (a new golf ball) was given to Sue Valentine as having the lowest score among we amateurs. Dee, Hazel Mahoney and Jan Downen are the so-called "professionals" among our group; being classified as such, as they have played longer than the rest of us.

New gullible golfers playing the nefarious nine holes with us, were Mia Bongers, Gladys Snider, Bebe Munkers and Meg Murray. (My this Heppner golf bug is as catching as the asian flu one). Speaking of Gladys, she is the fifth grandmother to join our ranks.

We also had our first catastrophe Sunday when Shirley Loyd decided to tee off behind the tee mat instead of on it, and her ball hit the edge of the mat and bounced back and "bopped her on the bean." (The next time I bet she uses the mat).

Speaking of accidents . . . Tuesday Bebe Munkers was nochal-

antly swinging one of her irons (that's a golf club) back and forth and Kay Robinson obliviously walked right into the back swing with her right shin, and at last contact krippled Kay was keeping cautiously around the course.

And while I am on the subject of the Robinsons . . . Creston, (that's Kay's husband) has developed an unusual one-handed drive which, in the words of Jan Downen "is twice as good as I can do with two". (I also overheard he chip shots with one hand too).

It seems that last week I omitted two "girl bird dogs" when telling you of Jan Downen's returning to the course after ladies day to hunt for golf balls. It seems as tho' she had two accomplices . . . in fact Betty Brown was the leader of the "lost golf mine" expedition (she even went home to get her hip boots). The other member of the safari was Shirley Loyd but she fell in wicked Willow Creek and went home early. (She had more sense than I did).

No man-made improvements have been made on the course during the last week but mother nature has gifted us with several dewy mornings and rainy days which have made our fairways much greener.

Alas and alack, we have eaten our last lunch at the Wishing Well for this season as it is closing Sunday and we certainly do appreciate the wonderful hospitality and service given us by Tom and Neva Wells. Next week everyone bring their own lunch and announcement of where we shall eat will be made then.

I guess that about does it for this week so until next tee time will close with this word of advice: CHANGE YOUR CLOTHES IMMEDIATELY IF YOU FALL IN A CREEK.

CHURCH ANNOUNCEMENTS

WHAT'S DOING

D. A. Short, your Telephone Manager for Heppner

The way things are growing around here, we're plenty busy putting in more phones. So, we keep on the lookout for time-savers. Like the little "watchcase" this telephone man's working with. This case connects the wire from a house to certain types of telephone cables outdoors. Makes the job a whole lot simpler. The case has a clamp on the back. So you can put it where you want it in a jiffy. Inside, it has a couple of tiny posts. You tie your wires around them. Then, snap on the top—and the job's done. Takes about 5 minutes. Time-savers like this help us bring more service to more people. In less time, too.

When you hear gir hissing out of an auto tire, first thing you do is find the leak and have it fixed. Same thing goes for some telephone cables. They've got compressed air in them. The pressure keeps out moisture. And believe me, we keep close tabs on this pressure, too. When air starts to escape, instruments let us know right away. They tell us just about where the leak is, too. That way we can patch it up before it affects your phone calls.

On November 16 at 11 p.m., dial telephone equipment will go into action at Pendleton.

This means that long distance calls placed by customers here in Heppner can then be completed more quickly than ever before. Pendleton's new dial system and 7-digit numbering plan are part of a nationwide system for speeding up intercity calls. Now the Pendleton Operator will be able to reach many far distant points for you by simply dialing—much as you do when you call a local number.

This new plan means, too, that after 11 p.m. on November 16, All Pendleton Telephone Numbers Will be New. Please remember to look them up in the new directory before placing your Pendleton calls with the Operator.

"Where else could I find a servant like electricity for 34¢ a day?"
...says Mrs. Milton Diamond, a Pacific Power customer

"Electricity works for me around the clock. And, believe me, my electric appliances get a real work-out serving my family of five. I'm amazed that the average cost of our electric service is only 34 cents a day."

Tens of thousands of Pacific Powerland homemakers are discovering how little it costs to live better electrically. Count up the hard-working electric helpers in your home, then figure how little they cost per day to use. You'll agree with Mrs. Diamond of Hood River, Oregon, that PP&L electric service is today's biggest bargain.

Are you enjoying full-time use of PP&L's dependable electric service? Stop in at your appliance dealer's soon and see all the modern electric appliances that can help you live so much better for so little cost.

PACIFIC POWER & LIGHT COMPANY

All these hard-working electric appliances serve Mrs. Diamond and her family of five for an average daily cost of just 34 cents:

<input checked="" type="checkbox"/> Range	<input checked="" type="checkbox"/> Freezer
<input checked="" type="checkbox"/> Refrigerator	<input checked="" type="checkbox"/> Water Heater
<input checked="" type="checkbox"/> Mixer	<input checked="" type="checkbox"/> Television
