WHAT'S DOING

D. A. Short, your Telephone Manager for Heppner

You know, that voice of yours really gets around by telephone. We can send it under the ground or through the air. And now—if you want to phone Hawaii—your voice will go under the ocean, too! The picture above shows a sample of the new telephone cable to Hawaii. Two ships worked all summer to lay 2400 miles of this cable on the ocean floor. So now, your long distance operator can dial calls direct to the Islands. And it makes no difference what the weather's like. Thanks to the cable, your calls go through fast and clear. Whether you phone Hawaii or the corner grocery, you can bank on good, fast service.

Put a Telephone under the tree!

Takes a lot of cable to keep up with your telephone needs these days. This year in the West, enough new cable went in to reach from here to the moon and back—nine times. Most cable comes from the U. S. through Western Electric, the Bell System's manufacturing and supply unit. Some comes from Japan, Spain and Portugal. Point is, when we need something to improve service, we go after it—wherever it is. Pacific Telephone

Colorful as the decorations—a cheerful reminder all year long, of your thoughtfulness. And there's no end to the comfort, pleasure and convenience that go with that extension phone. Easy and convenient to shop for too—if you live in Heppner just call our Pendleton Business Office!
