## "GENIUS IS PATIENCE"

By Phil Blakney

The compounding of pre-  
scriptions requires an in-  
finite amount of patience.  
Pharmacists first check  
the dosage of every ingre-  
dient because it is our legal  
and moral duty to do so.  
always make certain that,  
from the thousands of  
different medicines in our  
prescription departments,  
we select only the specific  
ones prescribed. We must  
carefully type on the label  
the directions, and perma-  
nently record the number  
for future reference. Be-  
cause of these patient  
efforts your safety is  
assured. You can always be  
certain each prescription is  
exactly as specified.

A MEDICINE

tion if shopping near us, or  
let us deliver promptly  
without extra charge. A  
great many people entrust  
us with the responsibility  
of filling their prescriptions.  
May we compound yours?
