Recently our government found it necessary to take action against certain door-to-door salesmen of vitamins and other medicines. In their eagerness to make a sale, these agents were making claims that were untrue. Their prices were found to be excessive.

Your health is too important to entrust to people of no medical or pharmaceutical knowledge. Physicians and pharmacists consider your welfare more important than immediate profits.

Be safe. Let your physician tell you what to take, and depend on us pharmacists to make certain your vitamins and medicines are of high quality and fairly priced.

where ordinary trucks can't go!

With the extra traction of its 4-wheel drive the rugged all-purpose Jeep Truck "takes off" where other trucks leave off. It carries a payload of more than a ton through mud, sand, snow or soft earth—goes where other trucks can't go. It travels at highway speeds in conventional 2-wheel drive. Equipped with power take-off, it supplies mobile power for many types of machinery used in industry or on the farm. It's time-tested and performance-proved... it's America's lowest priced 4-Wheel-Drive Truck.

Of course you may not have any insides left, but you'll still be safe behind.)
