From The County Agent's Office

By N. C. Anderson

As a result of continued requests from various farm groups including the Oregon Wheat Growers League and the Morrow County Town and Country Planning Conference additional research on the control of morning glory will be carried out this year. Word recently received from Dean Swan, Pendleton branch experiment station was to the effect that morning glory research work would be intensified with quite a little of the work to be done in the Columbia Basin counties. Experiments will be established on summer fallow and in stubble following harvest. It will now be necessary to locate areas where experiments can be established on farms here in Morrow county. We will need three areas about 200 by 150 feet. Various materials will be used at different rates and dates of applications. We would appreciate hearing from any farmers who would be interested in cooperating in this research work by providing a plot where Morning Glory infestations are present.

While we are talking about morning glory it is timely to announce that there will be an ACP practice payment for perennial weed control this year. The perennial weed control practice was taken out of the handbook two years ago. After a considerable number of attempts to get it back in as a practice we have just received word that it has just been approved. Those who are planning to do perennial weed control work this year should check at the County ASC office soon to sign up for this practice. Fifty per cent of the cost of chemicals and 50% of cultivation not to exceed \$7.50 per acre in the case of cultivation will be provided through the Federal Cost Sharing Program.

THIRTY YEARS AGO

From the files of the Gazette Times
April 26, 1928

At their regular meeting on last Thursday evening, Heppner Lodge No. 358 BPO Elks, installed the newly elected officers. Those were Harold Cohn, exalted ruler; Earl W. Gordon, esteemed leading knight; L. Van Marter, esteemed loyal knight; Paul Gemmill, esteemed lecturing knight; Dean T. Goodman, secretary; Walter Moore, treasurer; Francis Doherty, Tyler; J. G. Barratt, esquire; Carl Cason, inner guard; Harry Duncan, chaplain; Dean Goodman, organist; L. E. Bisbee, trustee.

John Coder, Harlan Devin and Ellis Thomson plan to leave Thursday noon for The Dalles to attend the state convention of Christian Endeavor.

Mrs. George Yokum, and Mr. and Mrs. Harvey Harshman of Eight Mile visited Mrs. Sperry at Hardman on Monday.

The Bob Allstott family spent last Sunday at the Archie Padberg's home where they joined in celebrating the birthday of Mrs. John Padberg.

If you have sold wool or unshorn lambs since April 1, 1957 chances are that you have earned a payment under the Federal wool incentive program. To collect it, be sure to file an application at the county ASC office not later than April 30. These applications are to cover wool and unshorn lambs marketed not later than March 31, 1958. Any sale made after that date goes over into the 1958 marketings and will be eligible for payments in 1959. Wool incentive payments are made under the National Wool Act of 1954. Payments on shorn wool are a direct incentive to increase production. Payments on unshorn lambs are made to encourage normal marketing of lambs with the wool on and avoid unusual shearing to get the shorn wool payment. The program for 1958, recently announced, will be similar to that during the past year, with the incentive price continuing at 62 cents per pound. To encourage the best possible job of marketing by wool growers the farmers earn a higher incentive payment by getting a higher price for his wool. While wool sales have been slow they have turned active during the last week or so. In Idaho, 40,000 pounds of fall and winter shorn mixed lambs wool sold for 35 cents a pound, grease basis. Around 7,400 fleeces of ewes wool sold for 38 to 39½ cents in California. In Wyoming, 3500 fleeces of 3/8 and ½ blood cashed for 38 cents a pound. With these lower prices being received for wool it appears that the incentive program will be necessary to encourage continued wool production.

For those who need additional grain storage space on their farms can get five year, 4% loans to finance cribs or bins. The purpose of the program is to help farmers obtain more on farm storage, particularly where it is needed to enable them to participate in the price support program. Any farm operator, share tenant, share land lord or producer partnership is eligible to participate in the farm storage facility and equipment loan program. Loans may be obtained on storage for wheat, corn, oats, rye and barley. While the structures financed do not have to be used for commodities which are under price support loans, they must meet the same storage requirements. A farmer may borrow up to 80% of the cost of new storage bins, cribs, or other approved structures. The loan may be repaid in four annual installments with the first installment due at the end of the first year. Applications for these loans must be filed in the Morrow county ASC office prior to purchase or start of construction.

Last week Dr. Charles M. Smith, soil scientist from the Pendleton branch experiment station and the agent located and staked out wheat fertilizer plots which had been used as experiments for the 1956 and 1957 crop years. These plots will be harvested in '58 and '59 to determine the residual effect of the fertilizer. This is a part of the wheat fertilizer experiment program set up five years ago to determine

Monument News

Mr. and Mrs. Gerald Slocum returned home Friday from Arizona where they spent the winter.

Mrs. Tony Hutchinson drove Mrs. Tony Wyatt to Pendleton Friday where she left for a trip east to visit her folks.

The Scotch-American dance at Long Creek will be held Saturday night, April 26.

Mr. and Mrs. Harold Lippert and son and Jake Jacobson were Sunday evening visitors at the home of Mr. and Mrs. Ansil Martin.

He provides the fertilizer, equipment and know-how you need to help produce higher yields. Better talk to your local Brea Brand dealer today!

From where I sit... by Joe Marsh

Turnabout a la Tony

Have you met Tony yet? He's from Europe—and rents the old Whalen farm.

Tony's a good worker and has that farm running pretty slick. Funny though—on days off—Tony hangs around the barbershop listening to the political discussions. But he never says a word.

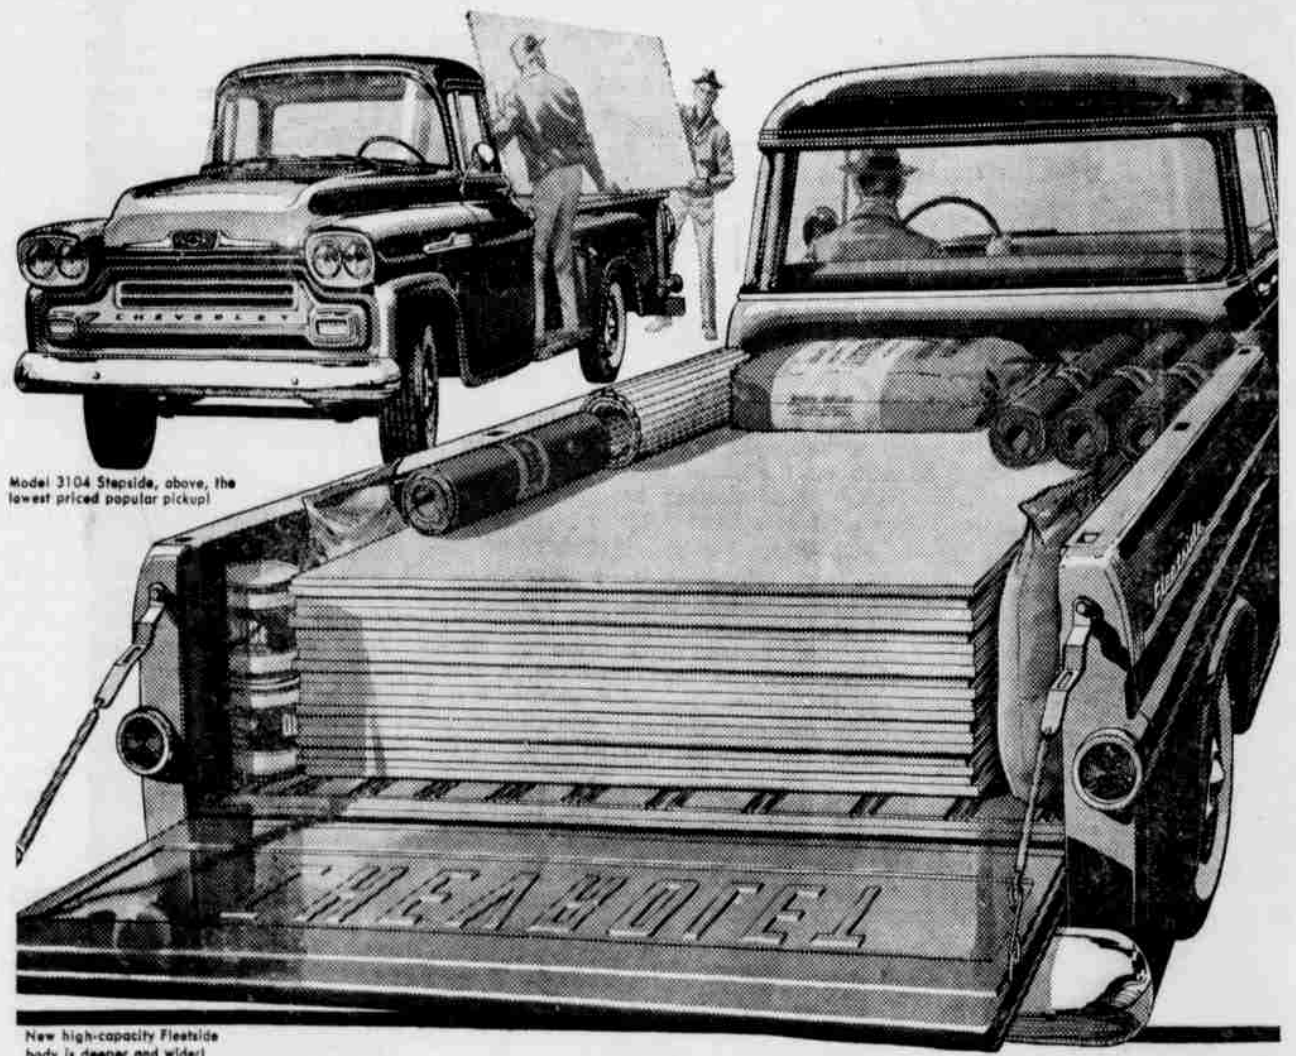

Last Thursday, though, Tony was there and was speaking his mind. When I asked him about the sudden change, he smiled and showed a brand-new set of citizenship papers. "Now I talk

up like an American should," he said.

From where I sit, every citizen has a right to speak his mind—on all subjects. For instance, I happen to feel that beer is just about the best refreshment beverage there is. Nobody has to agree with my choice—but there's no arguing my right to "sound off" about it.

Joe Marsh
