PERSISTENT

Nothing can compete with the traditional manor-house ghost for sheer staying-power—centuries of it. But SHELL NH₃ sure haunts the roots of your plants long after application! Irrigated or injected, this 82% Nitrogen fertilizer locks into soil particles to stay, doesn't just fade away, feeds the plants until completely used. There is no waste at all! In fact, for effectiveness and economy, SHELL NH₃ SERVICE does seem almost supernatural...but of course it isn't.

If you're not afraid of fatter yields, call for SHELL NH₃ in your fields.
