"SCIENCE IS ORGANIZED KNOWLEDGE"

By Phil Blakney

"The Health Team" is waging a continuing battle against disease. Research physicians are exploring every possible method that can diagnose and treat sickness better.

Working closely with them are the pharmaceutical chemists who even create new chemicals. Many of the drugs now in your prescriptions were invented because of the necessity to solve a particular problem.

Our chief duty, as pharmacist members of "The Health Team", is to make certain that when any particular medicine is needed we are prepared to dispense it.
