## Honor Society Picks Local Students

OREGON STATE COLLEGE—Shirley C. Kononen and Janet L. Wright of Heppner have been named members of Talons, sophomore honor society at Oregon State college. Participation in campus affairs and high scholarship are required for membership.

Only one coed is chosen for the honorary from each women's living group on campus.

Miss Kononen is majoring in business and technology. She is the daughter of Mrs. Kay Cox of Heppner.

Miss Wright is majoring in science. Her parents are Mr. and Mrs. Walter W. Wright of Heppner.

Both are 1957 graduates of Heppner high school.

## ROCK HOUND'S CORNER

By JOHN NEWMAN  
You should have been there. The rock sale was such a success that Fred McGill suggested the club pay each member \$10,000 as soon as the treasury would stand it. But it did not net the club \$24 and 30 minutes of real enjoyment. The highlight of the meeting came when Mrs. Walt Edger went on record as having done the club an injustice by making a motion some four months ago that we dispense with refreshments. Tonight she made one to again have them. The opposition was very weak. We are to have one more meeting before recessing for a couple of months. It will be at George Miller's home near Cecil. I will remind you of it later with directions how to get there.

The club picked Sunday, June 8 for a potluck and rock hunt on Chapin Creek.

As instructive entertainment of the evening, Hubert gave a short talk on agates. The Creator received credit for their formation and man has classified them in four groups.

I'm a little late in mentioning our guests—Mr. and Mrs. Hilsberg, Mr. and Mrs. Babb and Stanley Minor. Mr. Babb gave a short talk, and while not an authority on gems or minerals he is interested in them having started out when lapidary equipment was less available than it is today. His first saw, a disk of Russian iron cut out by a friend and charged with diamond dust or chips by himself. They spent the winter in Arizona enjoying the sunshine and picking up fine stones. He displayed a stone which he had found but could not classify. While visiting a show he asked six different experts to classify it, receiving six different answers which led him to believe the classification was not so important if the stone was beautiful or rare or it holds something of interest. Arizona is a very fertile field for rock pickers and he displayed some beautiful tumbled species of fire opal and desert roses, also a number of Oregon Jasper. Mr. and Mrs. Babb are now members of our club.

Speaking of specimens, Betty Wagner displayed a very good sample of autinite uranium which passed over the auction block. A plug for Chief Black

## Fire Destroys Home And Contents Near Boardman Monday

An early morning fire of unknown origin completely destroyed the house on the former Gib Califf place in the east end Monday. The farm was purchased about a month ago by L. G. (Rocky) Keller, who was away from home when the fire started. He had gone to Irrigon Sunday evening to borrow a truck to put up his hay, and had spent the night there. He started home about 4 a.m. and saw the smoke from the fire. The fire was first seen about 4:15 by Harold Kress, who lives near there.

Keller stated that the building was covered by insurance, but contents were only partially covered.

A washing machine, air conditioner and other things belonging to Mr. and Mrs. Bobbie Stewart stored in the basement were destroyed.

## LEAVES FOR HOME

Lee Colley and daughter Linda left Saturday by plane for their home in Casa Grande, Arizona. He has been in this vicinity since February operating the Roy Putman spraying business, as Putman was injured in a plane crash and unable to work.

Colley is the son of Mr. and Mrs. Charles M. Colley of Lexington.

## PLANS FOOD SALE

The women of Valby Lutheran Missionary Society are having a traveling food sale on Thursday, May 29 in Ione and Heppner. For special orders call Jane Rawlins 6-9709 or Martha Peterson 8-7136.

Hawk of Kennewick—he has for sale what he thinks to be some of the best arrowheads to be found anywhere at \$17 per 100, with 300 limit. His ad says they were picked up from the desert of Old Mexico by sheepherders.

Betty wound up the program with a picture of California highways. It was history of California from the early trails between missions to the present super highways, many of them following the old trails.

## Local Horses to Show at Salem

Morrow county horses and their owners will participate when the Arabian Horse Breeders' association of Oregon and Salem Jaycees stage the 12th annual All-Arabian Horse show at the state fairgrounds here June 21-22.

Celebrated as the oldest single-breed show of its kind on the Pacific Coast, the event is dedicated to the world's only pure strain of horse which has been preserved nearly 4000 years. Known as basic stock for nearly every popular breed of horse today, Arabians are easily recognized by their delicate heads, graceful bodies, stamina and a versatility unrivaled in the horse world.

While the show will attract exhibitors and their mounts from all over the country, Morrow county will be represented by Mr. and Mrs. Don Robinson of the Sand Hollow Hereford Ranch, Heppner.

Purpose of the annual Oregon Arabian show is to give exhibitors and breeders a chance to show off their mounts and to give the public a chance to see this oldest of all horses demonstrate his beauty and ability. The two-day show next month will draw more than 200 Arabians who will be featured in 31 events including all phases of show horse competition.
