WHAT'S DOING
D. A. Short, your Telephone Manager for Heppner

This young man's learning to climb a pole at a telephone "classroom in the sky." He'll get many hours of training, because there's a lot more to it than you might think. For instance, you have to make sure your right arm and leg move up at the same time. (Same with your left arm and leg). And you have to get the hang of the belts, the spikes, and all the other equipment. We have special schools not only for linemen but installers, operators, and many others. And with good, well-trained people on the job, you can be sure your service is in good hands.

Summer time is vacation time, and here's a tip to make your trip more pleasant. Before you leave, phone ahead for reservations. You can relax a lot easier, knowing you have a place to stay when you reach your destination. And the cost is small. Just look at the low out-of-town rates listed in your phone book, for instance. You'll be surprised to find how far you can call for only \$1 or less.
