## THE WORLD MARKET begins in PORTLAND

On the West, the World... on the East, the productive Inland Empire. These are the boundaries of a gigantic market, of which Portland is the recognized distribution center.

The land area alone served by Portland is roughly the size of New England, and is one of the most productive regions in America.

To this vast market potential, add one of the nation's finest harbor facilities, maintained at peak efficiency by the Commission of Public Docks.

That's why we say the market begins in Portland... where our Inland Empire trades with the world.
