

Mustangs End Season With 13-13 Echo Tie

By NEAL PENLAND
Last Friday, November 7, the Mustangs of Heppner high played the last game of the season at Echo. The game was a 13-13 tie and Heppner did all of the scoring in the second half.

The Horsemen first scored in the latter part of the third quarter. When Dick Ruhl went over from 7 yards out.

Ruhl again pulled through early in the fourth period when he went around end and fumbled on the 2 yard line. The ball rolled into the end zone and Ruhl fell on it.

Heppner was again knocking at the door when the gun sounded, ending the game. The Mustangs were on the 20 yard line after Larry Tibbles snagged a pass from Ruhl. The pass-run play went for 50 yards.

Chuck Meyers of Echo was just about a one-man team. He made all of their touchdowns, passed punted, and kicked.

In the first quarter Myers went 4 yards. In the second quarter he went 1 yard and also made the PAT.

Dick Ruhl and Steve Flug, were the most outstanding players, both on offense and defense. Along with them on defense were Bob Mahoney and Bob Huffman.

Again this week there were no books kept on the game, but the yardage was pretty close to even for both teams. Echo had the first half and Heppner had the second half.

To recap the season a little bit, Heppner played the first five games at home and won all but the Pilot Rock game. On the road they lost 2, won 1, and tied 1. The teams they beat were Wallowa (19-6), Fossil (32-0), Condon (35-18), and Stanfield (21-7). They lost to Pilot Rock (28-6) to Moro (26-19), and Umatilla (42-12).

The top five defensive players

of the season were Dick Ruhl, Bob Mahoney, Steve Flug, Dick Robison, and Bob Huffman.

The Echo game was the last game for seven seniors and we regret losing them. They are Dick Ruhl, FB-HB; Bob Mahoney, C; Steve Flug, HB; Bob Huffman and Dick Robison, E; Ned Clark, T; and Larry Prock, QB. We lost Larry early, as he broke his arm in the Moro game.

Coach Agee has announced that basketball practice will begin next week. The first game is the jamboree, around the first of December.

4-H Empire Builders To be Organized Here

A new 4-H club organization designed for older members of Oregon 4-H club work is being inaugurated in Oregon this year. A meeting is being called in Morrow county for Wednesday, November 19, at 8:00 p m at the county agent's office in Heppner where extension agents, N C Anderson and Esther Kirmis will inform these teen-agers of the purpose and functions of this new organization.

The Empire Builders is designed for boys and girls who are in the 9th grade (high school) and are under 21 by January 1 of the current year. The projects planned for the builders will give teen-age boys and girls opportunities to participate in community, county, district, and state educational, recreational, and service activities. Any boy or girl may participate without being a 4-H club member or without completing a project report form. To receive credit for a year's completion in this new 4-H club work however, a teen-ager must fill out the 4-H builders report which lists the activities he plans to carry out.

The 4-H Builders' projects cover those activities which a 4-H'er may do in service to others, promotion of 4-H, or other activities not directly associated with a project club. Some suggested projects are: recreation training, career study, grooming and dating, camp counseling, International Farm Youth Exchange, tours, etc. As a member of a 4-H Empire Builder's council or club, each 4-H member will work with an adult adviser and the county extension agents.

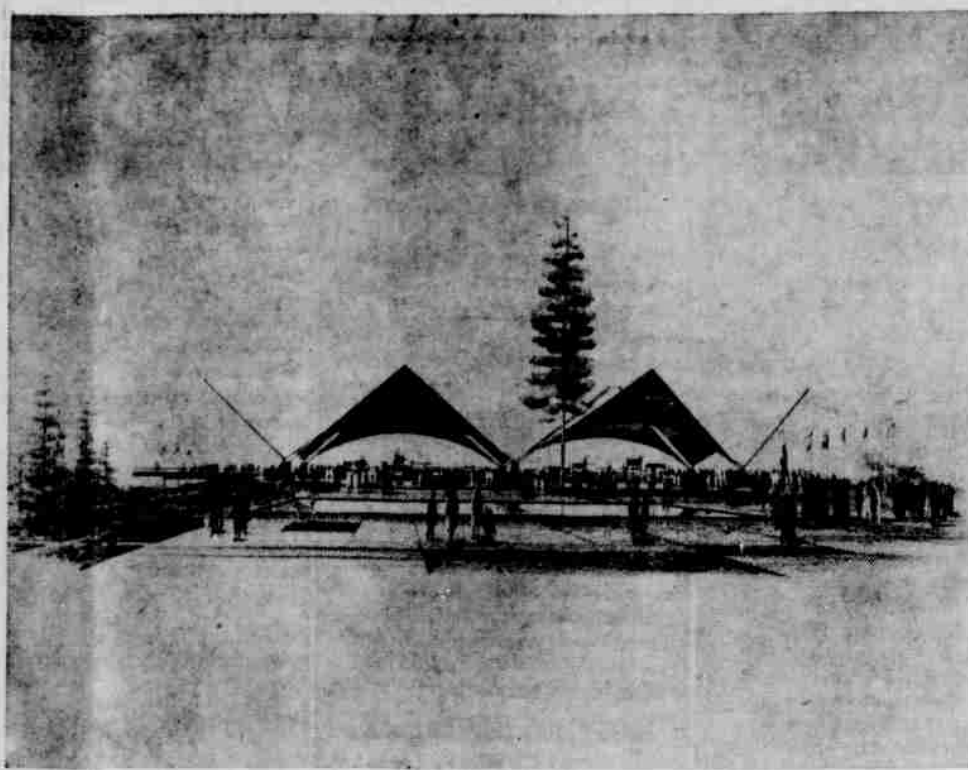

Any interested boy or girl enrolled in high school or under 21 years of age is urged to attend the November 19 meeting to get full details.

Former Residents Note Golden Wedding Anniversary

Mr and Mrs M N Kirk of Hermiston, formerly residents of this area, recently attended the golden wedding anniversary of Mr Kirk's brother-in-law and sister, Mr and Mrs Roy E Tyler who now reside in Lebanon but who for many years made their home near Heppner and Lexington.

Among those attending the reception were Mr and Mrs Arthur Gammell, also well-known former Heppner residents; Rev Warrenton of Corvallis, who performed the wedding ceremony in 1908 and at that time was a minister in Pilot Rock. All the Tyler children were present except their youngest daughter, who teaches in Honolulu. She sent Hawaiian flowers for the occasion.

The Roy Tylers homesteaded land near the Claud White ranch near Lexington. Later he and his brother-in-law, Merle Kirk farmed the large Bell estate in Blackhorse and the McCarty ranch in Sand Hollow. The Tylers then acquired his mother's ranch, now the Majeske ranch, where they lived for some time before moving to the valley.

New concept in building design will be embodied in forest products building to be erected at Oregon Centennial Exposition. Total cost of building and exhibits is \$250,000. This is architect's drawing of building. Exposition will open at Portland June 10, continue through Sept. 17, 1959.

Local News In Brief

Mr and Mrs Oliver Creswick and Mr and Mrs Paul Jones attended Friendship night at Alki chapter Order of the Eastern Star at Walla Walla last Thursday evening.

Mr and Mrs Frank Anderson and Mr and Mrs James Valentine were in Pullman, Washington over the weekend to attend the Washington State-Oregon State football game.

Mrs Sloan Thomson left Tuesday for her home in Portland after a visit here with her daughter and son-in-law, Mr and Mrs Jim Valentine.

Weekend guests at the home of Mr and Mrs Archie Padberg were Mr and Mrs Edwin Tucker and sons Danny and Kyle of Salem. Sunday dinner guests were Mr and Mrs Woodrow Tucker and family of Hermiston, Mrs A J Queener of Stanfield, Mr and Mrs Edwin Tucker and sons of Salem and Mr and Mrs Eldon Tucker and family of Ione.

Mr and Mrs Frank Caldera of Spray were Monday night guests at the Archie Padberg home.

Small Mouse Poses Serious Problem In Tree Reforestation

OREGON STATE COLLEGE—A small mouse with an enormous appetite for tree seed poses a serious problem in natural or artificial reforestation of forest lands in Oregon, a study made by an Oregon State college forestry graduate shows.

The white-footed deer mouse destroys more coniferous tree seed than any rodent, it was found. Two mice per acre can consume in five weeks the one-half pound of seed usually sown in artificial seeding. The population per acre runs from two to eight.

Research on the mouse was conducted on Tillamook Burn plots by Edward F Hooven for his master's degree in forest management. Hooven is a research mammalogist with the state-operated Oregon Forest Lands Research Center, located in Corvallis.

His study was aimed at providing life history information on the mouse so that control measures may be made more effective.

Control earlier was based upon the use of a cereal grain treated with a rodenticide, but was only partially effective because fall and winter rains reduced the lethal qualities of the bait. Since 1952, a direct application of a rodenticide to the tree has been used with excellent results. It is not affected by the weather.

1959 Mercury Makes Debut Here Friday

The last of the new 1959 cars, distributed in this area, the new Mercury, will go on display tomorrow at Rosewall Motor company in Heppner.

Many mechanical and styling changes have been announced by the company including a much larger windshield area, a lower hood line for better visibility and a refinement of other style points. The new model is said to look lower and larger than previous models.

Ullman Issues Statement on Win

Congressman Al Ullman, who has returned to his seat in Congress over the opposition of Marlon Weatherford of Arlington, Wednesday expressed his thanks for voter support in a statement from his home in Baker.

He said, "I am very proud and happy that the people of the 2nd Congressional district have again honored me by their expression of confidence at the polls. The wide margin of victory in all parts of the district is most heartening.

"I want to take this opportunity to express the deep appreciation of both Mrs Ullman and myself for the loyal and hard work of our many friends throughout the district who made this victory possible.

"I shall continue to dedicate myself to the service of the people of the district and the nation and shall call on them again for their advice and assistance in the task ahead."

OSC Receives \$13,900 For Allergy Study; Pollen, Dust Checked

OREGON STATE COLLEGE—Oregon State College research on allergy compounds, particularly grass pollen and house dust, has received a \$13,900 supporting grant from the U S Public Health Service.

The research is aimed at determining the nature and makeup of the active compounds that cause the bothersome allergies. Isolating the compounds and understanding of their chemical makeup should aid scientists, it is believed, in finding more effective treatments and preventatives.

In western Oregon, house dust and grass pollen account for most of the inhalant asthma and hay fever. Across the nation, about 1 person out of 10 is affected by allergies.

Almost unbelievably small amounts of the allergy will bring reactions in some persons, according to Dr Tsoo E King, project leader for the Science Research Institute at OSC. Cooperating with King in the study are Dr Arthur Lietze, research associate, and Arthur Mailey, graduate student.

Dr Charles E Reed, Corvallis physician and a staff member at the University of Oregon Medical School, is working on related phases of the project.

Mr and Mrs Al Noble of Independence, Oregon were overnight guests last Thursday at the home of Mr and Mrs Conley Lanham.

PP&L Wins Good Work Safety Record

Local employees of Pacific Power & Light Company have helped achieve a new company safety record that ranks the company's system-wide operations third best in the United States for the low number of loss-time accidents. It was reported Wednesday by J R Huffman, local manager.

Recognition for the outstanding performance came in Edison Electric Institute's annual report placing Pacific Power's accident frequency at a low rate of 2.28 accidents for each million man-hours worked. This is less than half the national average for the report year among electric utilities of similar classification, and 65 percent below the PP&L rate for the previous report year.

Pacific Power's accident severity rate was 129 days lost for each million man-hours worked, compared with a rating of 1,410 for all other companies in the same class. This placed the company fourth best in the nation.

HOSPITAL NEWS

New Arrivals—To Mr and Mrs Jesus A Juarez, Condon, a 5 lb 12 oz girl, born Nov 8, named Maria Del Carmen. To Mr and Mrs Everett Barlow, Arlington, a 5 lb 15 oz girl, born Nov 9, named Mary Louise.

Patients—Marie Fore, Heppner, dismissed; George Bradley, Hillsdale, dismissed; Bernice Healy, Heppner, dismissed; Carl Bergstrom, Heppner; George Petteys, Ione; Monte Robison, Heppner, dismissed; Opal Geer, Fossil; Claudine Warren, Heppner; Martha Stockton, Spray.

RECEPTION FOR NEWLYWEDS
Mr and Mrs Herman Howard will honor their son-in-law and daughter, Mr and Mrs Warren Thompson, Jr (Mona Howard) at a reception Saturday evening, November 15 at 7:30 p m at the IOOF hall in Heppner. All friends are cordially invited.

GETS MACHINIST'S MATE RATING
Audie J Privett, fireman, U S Navy, son of Mr and Mrs C H Privett of Heppner, graduated Oct 10 from the machinist's mate school at the Naval training center at Great Lakes, Ill.

During the 12 weeks course he was trained in the principles and repair of main propulsion machinery aboard ships.

Mr and Mrs Tom Schoonover and Ricky and Trisha of Portland are visiting this week at the home of her brother and sister-in-law, Mr and Mrs Eddie Gunderson.

Soil Conservation Association Plans Annual Convention

Natural resources come into focus November 20 and 21 at Baker when delegates from Oregon's 57 soil conservation districts stage the annual convention of the Oregon Association of Soil Conservation Districts.

Farmers, professional conservationists, and other agricultural leaders will discuss soil, water, forests, and wildlife conservation in districts that now cover more than 80 percent of Oregon's farm acreage. Ralph Wilson, Salem farmer, is association president.

Convention highlights will include finals for the association-sponsored state-wide speaking contest for high school students. Regional winners, representing seven Oregon areas, will compete. The topic is "Forest Conservation."

Don Fredrickson, Gooding, Ida, vice president of the National Association of Soil Conservation Districts, will speak at the annual banquet. Master of ceremonies will be William Cooper, Union, a director of the Oregon State Soil Conservation committee.

Farmers and district supervisors will conduct a symposium discussion on economics of conservation for rangeland, cropland, woodland and irrigated land.

Prelude to the convention is a statewide soil judging contest for district delegates, November 19 at Baker. Arthur King, Oregon State college soil conservation specialist, and Karl Baur, Portland, chemical division manager of Pacific Supply, are in charge of contest arrangements. They will be assisted by Soil Conservation Service technicians and OSC soil scientists.

Judging contest awards and the annual Goodyear Award to Oregon's outstanding soil conservation district will be presented November 20 at a convention luncheon.

4-H Club News

RHEA CREEK LIVESTOCK CLUB
The Rhea Creek Livestock club met at the home of Mr and Mrs Frank Anderson on Nov 5. All officers and members were present. We voted to have our club meetings on the first Sunday of each month at 2 p m. We have another new club member, she is Tana Valentine.

We got our new record books and stories for 1959. Each member of the club got a new enrollment card to fill out to start a new year. Our guests were Mrs Harold Wright, Wilbur Van Blokland, Bill Rawlins, Darrel Harris, Mr and Mrs James Valentine, Paul Webb and Leonard Rill. At the close of the meeting we had cider and doughnuts. The next meeting will be at Mr and Mrs Valentine's Dec 7 at 2:30.
