D. A. Short, your Telephone Manager for Heppner

Clock stopped? Every day, thousands of folks here in the Pacific West get the correct time from us. In many places, they just dial a number. This connects them with a machine which automatically gives the correct time. In other areas, local operators are always ready to give you the time. Of course, you may not need to use this service every day — but it's nice to know the correct time is as near as your phone. And this service is just one of the many useful "extras" that adds value to your telephone.

Even when youngsters are almost grown up, out-of-town relatives who haven't seen them for a while may still think of them as small children. Keep the out-of-town folks up to date on all their doings. Telephone often. Let the whole family join in the visit. The cost is low — and each call helps keep family ties strong. Pacific Telephone
