"You Can't Escape The Responsibilities Of Tomorrow By Evading It Today"

By Phil Blakney

Research scientists now agree any sickness, that is not soon overcome, can ravage your body, so that your life may be shortened. Therefore, if you evade your responsibility, of immediately taking good care of yourself when sick, you may not escape the penalty of future bad health.

It is easier to overcome any sickness or disease if the cause is quickly diagnosed and the proper treatment prescribed. Be wise. Always consult your physician at the very beginning and take the medicines he will prescribe so that you will get well more quickly.
