are equally important to the fishermen at the mouth of the river. So it goes with timber, pears, apples, mining, stock raising, and the myriad of other interests which go to make up the broad economy of our state.

As these bills come to our desks we make every effort to make note of the various topics and then determine the interests of the folks back home and the broad aspects of the measures as related to all of Oregon. I would like to stress once more that I urge all of you to keep in touch with me regarding any legislation which interests or concerns you. If you see an item in your newspaper about a particular bill of this kind by all means let me know. I will secure for you a copy of the measure and try to advise you of the current status of the measure. Further, you then alert me to the interests of the people of my area and give me invaluable assistance in determining how I can best serve our needs.

This will be the week when we really start working toward our goal which is a one-hundred day session.

Warmest regards to all
