"Folly Consists Of Drawing False Conclusions"

By Phil Blackney

Very few people realize how great a value modern prescriptions really are. Older folks know, because they remember how long it used to take to cure an illness, the medical bill for the many calls physicians had to make and the large percentage of patients who unfortunately never did recover.

It is true that certain medicines, because of costly ingredients and expensive research seem highly priced. But now your physician makes fewer calls, you have much less sickness time and more lives are being saved. If you are ever concerned about the cost of any prescription, we will be glad to show you our system for pricing them fairly.

Non-Surgical Method Cures Hemorrhoids Painlessly

A relatively painless, non-surgical method of treating hemorrhoids (piles) is working therapeutic miracles for thousands who suffer from rectal and colon disorders.

A recently developed electronic treatment is proving more effective than surgery, with none of the after effects of surgery.

The relatively new technique requires no hospital-

ization or confinement. Patients show marked improvement almost immediately, and uncomplicated cases can be frequently corrected in as little as 10 days.

Further information without obligation may be obtained by writing the Dean Clinic, Chiropractic Physicians, 2026 N. E. Sandy Blvd., Portland 12, Oregon.
