Farm Housing Loans Now Available Here; FHA Announces

The construction and repair of farm houses and other farm buildings may be financed by Farmers Home Administration loans, according to Charles Hunt, county committeeman.

He said the same kind of farm housing loan program is available as last fiscal year when 68 Oregon farm owners borrowed \$569,095 to construct, improve, or repair farm houses and other essential farm buildings, or to provide water for farmstead or household use.

Farmers Home Administration loans are provided only when a bank or other lender cannot adequately serve the farm owner's credit needs, at the present time. The agency does not compete with conventional or cooperative lenders, Mr Hunt said, but does supplement the credit services supplied by other sources. Borrowers agree to repay the housing loans within the shortest time consistent with their repayment abilities, but no loan schedule can go beyond 33 years. The interest rate is 4 per cent.

Although housing loans go only to farm owners, an owner may borrow to repair or build a house or other farm buildings for his tenants or farm laborers. A borrower must be an American citizen. Any farm involved must be big enough and operated in such a way as to be considered an actual farm, and Farmers cannot use farm housing loans to buy land or refinance debts.

Farmers buy their building materials wherever they please, usually from local dealers. They obtain their building plans from any reliable source they choose. During construction the agency makes periodic inspections to make certain that sound construction standards are followed.

Further information on the loans may be obtained at the county office of the Farmers Home Administration located at 105 S E Byers Avenue, Pendleton, Oregon on Monday of each week.
